State Distributes Checks to Counties For School Salaries

Moore Says \$3,873,176 Is Sent Out From Albany; Other Developments

Albany, N. Y., April 25 (AP)—The state has begun distribution of payments from \$32,000,000 appropriation for emergency increases in salaries of public school teachers.

State Comptroller Frank C. Moore said yesterday checks totaling \$3,873,176 had been mailed to New York city and county treasurers for distribution among localities. New York city's share was \$2,347,950.

There were these other teacher pay developments yesterday:

1. The Syracuse Teacher Association, in a statement released at Albany, censured Dr. Francis T. Spaulding, state commissioner of education, for what it termed "failure in leadership and betrayal of his trust" in the drafting of a report to the legislature on teacher salaries.

2. The Cattaraugus County Board of Supervisors, meeting at Little Valley, declined to levy special taxes as permitted by the 1947 legislature to pay for increased teacher salaries and urged Governor Dewey to call a special session to find other means of providing for the increases.

The \$32,000,000 additional state aid was appropriated by the 1947 legislature to finance emergency increases from last January 1, to March 31, 1947. The temporary program was incorporated later in a permanent schedule effective next July 1.

Reimbursing Localities
Moore said yesterday's payments, in most cases, were to reimburse localities for salary increases granted to teachers in the first quarter of 1947. The money was allocated on the basis of the number of teachers employed each month.

The Syracuse teachers' resolution asserted that Spaulding, a member of Governor Dewey's committee that drafted the permanent teacher pay plan, should have filed a minority report.

"The commissioner signed his name to the report which recommended a promotion system for teachers based on preferences," the resolution said, "that system has been tried elsewhere and discarded by progressive educators."

Declines to Comment
Spaulding declined to comment on the resolution.

The permanent pay plan provided for both automatic and merit increments, it set a salary range of \$2,000 to \$4,510 annually, with a \$2,500 to \$5,125 in New York city.

The 1947 legislature authorized counties and large cities to levy sales, amusement, business and other taxes to finance teacher pay increases and other expenses.

25 - Room Burned At Church Sets Goal For Building Fund

First Dutch Congregation Seeks \$110,000 for New Program

A building fund goal of \$110,000 was set by the congregation of the First Dutch Reformed Church Thursday night with an intensive campaign to be conducted June 2 to 16. The sum was decided at the annual congregational meeting which was attended by more than 200 members, one of the largest meetings in years.

The fund will be used in the remodeling and erection of additional space in the present Sunday school and kitchen rooms of the church proper. The church originally had plans for a larger wing which would cost \$240,000. Many of the members considered this an extravagant figure at the present time, and Teller and Halverson, architects, submitted revised plans to the congregation last night.

The finance committee has \$42,000 in cash and pledges. The difference is expected to be collected and pledged during the June drive.

The discussion at the meeting was led by G. Herbert DeKay and Jacob Tremper who have been working on building committees, and Harry Halverson, representing the architects. Mr. Halverson will meet with representatives of the church organizations to discuss the plans in detail.

Two suggestions from the Kingston Chamber of Commerce were brought before the meeting. The congregation voted to reject the plan to remove the large elm tree which grows out into the street at the corner of Main and Fair streets. Many members believed that the old tree should be preserved as long as possible since its growth parallels that of the church itself. It was also noted that the parking meters eliminate some of

Resort Is St. Remy Vera Skurhas Property Destroyed Thursday; Owner and Dugans Have Big Loss

Fire which started in an unoccupied portion of the Vera Skurhas boarding house at St. Remy shortly before 3 o'clock Thursday afternoon destroyed the large 25-room house. When the fire was discovered by James F. Dugan, who with his wife and two small children occupied an apartment in another part of the large house, the fire had gained such headway that it was impossible to save any of the contents and Mr. and Mrs. Dugan lost all of their possessions except the clothing they wore.

Mr. Dugan today said the fire had started in a room where members of the Skurhas family had been working shortly before Mrs. Skurhas and her son, who reside in New York, had been at the place getting it in shape for the summer boarding season. The house other than the portion rented by Mr. Dugan is used as a summer guest house.

While outside the house Mr. Dugan's attention was attracted to smoke and on investigating he found the room which the owners had been using to paste wall paper, was a mass of flames. Mr. Dugan attempted to enter the place but was driven back by flames. Partially crippled by loss of a limb, Mr. Dugan notified his wife and she and the two children were able to escape without the clothing they wore. Unable to save any of their household articles, Mr. Dugan said the loss was complete as he carried no insurance on the contents of his apartment.

Cash Lost Too
No estimate of the loss was available today but it was stated that in addition to the house and contents Mrs. Skurhas had lost a considerable amount of cash in the fire.

Although the fire had gained considerable headway and the room in which the fire started was a seething mass of flames when the firemen arrived, they were able to contain the fire.

Report on Lunch Program Given at School Meeting

Kingston Pupils Served 209,553 Meals at \$1,991 Deficit; Other Matters

Since the opening of schools last September and until April first there were served in the schools of Kingston under the F.D.A. school lunch program a total of 209,553 lunches. The cash income from these lunches has been \$53,801.26 and the total cost has been \$69,060.38, leaving a deficit against which certain credits amounting to \$4,991.75 are to be made. The net deficit is \$11,067.37 and the Board of Education in its annual budget appropriated \$15,000 to meet the deficit.

There has been served a total of 135,568 Type "A" lunches and 73,985 Type "C" lunches. Of the Type "A" lunches approximately 12,000 have been free lunches and approximately 7,000 of the Type "C"

Poughkeepsian Walks From Wreckage at Foot of Lookout Point

Frederick Sezelnow of 121 Mark street, Poughkeepsie, driving down Palenville mountain in a Chevrolet panel truck Tuesday failed to make the turn at Lookout Point and crashed through a heavy retaining fence and his truck landed at the foot of the 500 foot cliff. The driver walked out from the wreckage with a few bruises about the face and body to report the accident.

The truck in its downward plunge first struck a small shelf part of the way down and then hurtled to the bottom of the cliff. It was said by Sezelnow that the car after plunging through the guard fence simply went off into space to land right side up at the foot of the mountain. Trooper H. R. McCabe of Catskill barracks investigated the accident. As the car plunged downward the hood, doors and other parts flew off into space.

Local Boy Reported Missing From Home

Local police were notified at 12:05 a. m. today that Robert Hough-taling, 14, of 217 Downs street, had not returned home since he left Thursday morning to attend St. Joseph's school.

The youth was described as five feet, eight inches tall, weighing 120 to 130 pounds. He has blonde hair and blue eyes and when he left home was wearing brown trousers, plaid jacket and baseball cap. He rode to school on a blue bicycle, the police were told.

President and Cabinet Hold Discussions on Ending Nationwide Tieup of Lines Starting All Over

Strikers Defense Fund Swells as Attempt Is Made to Force Break

By HAROLD W. WARD
Washington, April 24 (AP)—President Truman and his cabinet discussed the nationwide telephone strike today.

There was no indication, however, of prospective government action other than federal conciliators' moves for new union-management negotiations in the 19-day-old tie-up.

Cabinet members told reporters that the strike "came up" during their 35-minute session with the President.

Secretary of Interior Krug said the "only new thing" is that "they are starting all over again."

He referred to the union-management meetings arranged here by federal conciliators seeking to end the strike.

Tampering Reported
The government began its new attempt to force a break in deadlocked wage negotiations as the strikers' defense fund swelled with gifts from labor union allies, and the companies reported mounting instances of cable-slashing and tampering.

Today's separate conferences—arranged under federal pressure—were between union representatives and officials of the Long Lines Division of American Telephone and Telegraph Company at one session and the Southwestern Bell Telephone Company, largest of the more than 20 Bell subsidiaries, at the other.

Both groups had tried it before. A tentative agreement between the long lines officials and the American Union of Telephone Workers was reached April 10, but the policy committee representing all 39 unions in the nationwide strike turned it down the next day.

The unions are affiliated with the National Federation of Telephone Workers, an independent labor organization.

Talks Collapse
The earlier talks between the Southwestern Bell Company and the Union collapsed and company officials returned to St. Louis.

Although the union has said a wage offer from the companies would be necessary to end the strike, southwestern Bell emphasized it would not make such advance commitment.

This did not discourage Edgar L. Warren, conciliation director, who told reporters "I can see a lot of point in getting people into negotiation, even though they say in advance what their position will be."

6,000 Join Strike
Philadelphia, April 25 (AP)—The 6,000 maintenance and repair workers of the Bell Telephone Company of Pennsylvania today joined the nationwide strike.

Exactly what effect the walkout would have on communications in the Keystone State could not be determined immediately.

Until now service inside Pennsylvania has been only slightly affected by the strike of the National Federation of Telephone Workers, approaching the end of its third week.

Whether the end of maintenance and repair work would cut into intrastate service remained to be determined. William S. Leary, president of the Federation of Telephone Workers of Pennsylvania, says "all but a small percentage" of the members have been remaining away from their jobs since the strike began.

Newburyport Plans To Continue 'Cuts' Leader Says Experiment Is Not Sale on Mark-Down Basis, but Refund of 10 Per Cent Is Given

Newburyport, Mass., April 25 (AP)—With sales still booming, retailers in this city today prepared to extend indefinitely their 10-day experiment in "rolling back" prices 10 per cent on everything.

More communities—and wholesalers, too—throughout the nation were enlisting in the "Newburyport Plan" as its sponsors insisted it was not a "mark-down sale."

Norman J. Randall, director of the Essex Development Council supporting the plan, said that hundreds of inquiries reached his office and that it was clear much misunderstanding had developed.

"Some seem to think this is a mark-down sale," he asserted. "It isn't. Price tags aren't being changed. It's just that the consumer is refunded 10 per cent of the amount of his purchase."

Randall explained that even retailers, such as druggists, who handled a lot of goods on which prices were fixed by the manufacturer or fair trade laws could participate.

Even bar rooms were joining in the crusade against inflation launched by merchants in this little seaport Tuesday in response to President Truman's appeal that prices be cut.

In many bars, you get a cent back on a glass of beer.

Chester Saunders, who owns a neighborhood drug store, has introduced a novelty. Handling a large volume of low-priced items, he has placed a bowl filled with pennies on the counter with a placard "help yourself to your 10 per cent refund."

One automobile dealer, Randall said, had only one new automobile on the floor but was ready to sell it under the "10 per cent refund."

Virtually 100 per cent of the retailers in Newburyport are pledged to support the plan. Only two national food stores are not officially participating, Randall said, explaining they took the view they were reducing prices to consumers as much as they could along with reductions in the market.

Calls It 'Travesty'
Washington, April 25 (AP)—The N.A.M. called today for prompt enactment of the \$4,000,000,000 income tax cut bill, but the C.I.O. criticized it as "a travesty upon justice" which "gives all the gravy to individuals with high income."

Justice Hughes Contributes To Kingston Y.M.C.A. Drive
The following letter was read at the opening of the Kingston Y.M.C.A. financial drive for \$20,000, held Thursday evening and shows that Kingston and its worthwhile institutions have a warm spot in the heart of one of the most prominent jurists of our country. Justice Hughes is a former Governor of the State of New York and former Chief Justice of the United States Supreme Court. Justice Hughes' mother was a sister of the late State Senator Henry C. SUPREME COURT OF THE UNITED STATES
Washington, D. C., April 23, 1947
Dear Mr. McEntee:
I have received your letter of April 18th and I am glad to send you a contribution for the Y.M.C.A. in Kingston. The demands of national organizations and the local requirements of the charities in Washington are so heavy that I have been compelled to make it a rule not to give to local charities elsewhere. However, in view of the relation of my mother's family in Kingston, I am happy to make an exception in this case. I wish I could make a larger contribution.

Wallace Says Jewish Actions Necessary to Arouse World

Paris, April 25 (AP)—Henry A. Wallace declared today that a Jewish resistance movement in Palestine had been necessary to "arouse the conscience of the world."

Expressing faith that Britain would solve the Holy Land problem and hope that it would "carry out the original Balfour Declaration," the former American vice president told a news conference that "there can never be peace in the world until justice has been done the Jewish people."

"I sympathize with the British and I deplore terrorism," Wallace said. "I have never believed in force of arms or force of money. But we do have to recognize facts. I think it has been necessary

Would Take Care of 788 Students

If Plan Is Adopted It Will Give, He Says, One of Richest School Areas in State

Names Woodstock
Woodstock Would Send Pupils Above Sixth Grade Under Plan

Centralization of school districts in the towns of Olive, Shandaken and Woodstock would accommodate an estimated 788 pupils and probably more, Reginald R. Bennett, district superintendent of the Fourth Supervisory District, said today.

The proposal, which was recently the subject of an intensive study by the State Education Department, Bennett said, if adopted by the voters, will probably mean no school building before 1950, but it is planned to "centralize the area and operate under the centralization law until new buildings are ready."

Bennett explained that as soon as the study is evaluated, the results will be sent to the 29 school districts that comprise the proposed centralization. A booklet with all pertinent information will be circulated to the thorough study by the voters before a final vote is taken.

Following are Mr. Bennett's statements in his communication to The Freeman:

If the proposed centralization, which the Rapp Committee incorporated into the state's master plan and recommended to the commissioner of education, is approved by a majority of those voting in the three towns, it will be one of the largest and richest centralizations in the state.

At present the Town of Olive has 166 pupils, grades 1-12; Shandaken has 290 such pupils; Woodstock has 286 such pupils. Two districts in the Town of Lexington (Broadstreet Hollow and Bushnellville) are included in the proposed centralization and they have 16 pupils. The total number of pupils is 788, but under centralization the number would be larger because kindergarten children would be added. It is believed, too, that when a high school is built in the area more local pupils will stay in school until they graduate. Under present conditions, all pupils in grades 9-12 commute to high schools outside of the towns, and the percentage of those in the academic field who do not graduate is large. Route 28 goes through the length of the Fourth Supervisory District, which includes the Towns of Olive, Shandaken and Woodstock, and on this route there is no high school between Fleischmanns and Kingston, a distance of 40 miles or more.

12-Grade School
Under the three-town plan, a new 12-grade school with kindergarten will be built between Mt. Tremper and Boiceville. A new 6-grade school with kindergarten will be built in Woodstock. The Pine Hill school will be renovated and used for pupils K-3 from several adjoining districts. One of the schools in Olive will be renovated and used for the lower grades from certain districts in south Olive.

The Pine Hill area is farthest from the proposed site of the high school. The distance is about 18 miles. Olive Bridge, Krumville and Samsonville in Olive are 12 to 14 miles from that site. Woodstock village is 10 miles from the proposed high school site. All other districts in the Town of Woodstock, with the exception of Zena, are less than 10 miles from the potential high school.

The three-town proposal calls for one of the finest rural school systems in the state. There would be enough pupils and enough real valuation to warrant having the kind of modern buildings, curriculum, and extra-curricular opportunities that rural boys and girls are rightfully entitled to enjoy. Special teachers in art, music, agriculture, industrial arts, and physical education would be regular members of the school faculty. A full time school nurse would be employed and also a dental hygienist who would work either part time or full time. This is the kind of modern school the State Education Department recommends for an area whenever such an excellent program can be carried out.

State Distributes Checks to Counties For School Salaries

Moore Says \$3,873,176 Is Sent Out From Albany; Other Developments

Albany, N. Y., April 25 (AP)—The state has begun distribution of payments from \$32,000,000 appropriation for emergency increases in salaries of public school teachers.

State Comptroller Frank C. Moore said yesterday checks totaling \$3,873,176 had been mailed to New York city and county treasurers for distribution among localities. New York city's share was \$2,347,950.

There were other teacher pay developments yesterday. The Syracuse Teachers Association, in a statement released at Albany, censured Dr. Francis T. Spaulding, state commissioner of education, for what it termed "failure in leadership and betrayal of his trust" in the drafting of a report to the legislature on teacher salaries.

The Catteraugus County Board of Supervisors, meeting at Little Valley, declined to levy special taxes as permitted by the 1947 legislature to pay for increased teacher salaries and urged Governor Dewey to call a special session to find other means of providing for the increases.

The \$32,000,000 additional state aid was appropriated by the 1947 legislature to finance emergency increases from Jan. 1, 1947, to March 31, 1948. The temporary program was incorporated later in a permanent schedule effective next July 1.

The Syracuse teachers' resolution asserted that Spaulding, a member of Governor Dewey's committee that drafted the permanent teacher pay plan, should have filed a majority report.

The commissioner signed his name to the report which recommended a promotion system for teachers based on preferences; the resolution said, "that system has been tried elsewhere and discarded by progressive educators."

Declines to Comment
Spaulding declined to comment on the resolution.

The permanent pay plan provided for both automatic and merit increments. It set a salary range of \$2,000 to \$4,510 annually, with a \$2,500 to \$3,125 in New York city.

The 1947 legislature authorized counties and large cities to levy taxes to finance teacher pay increases and other expenses.

The Catteraugus supervisors asserted in a memorandum that the cost of collecting such taxes would be prohibitive, that adjoining counties could not levy the taxes uniformly to avoid business conflicts and that the alternative of

Nation's Prices Are Still Out Of Line After Month's Talk

New York, April 25 (AP)—The nation's price structure remained out of balance today after a month of wide discussion sparked by President Truman.

Although reductions were spotted here and there, the consumer found many prices unchanged and some increased.

Some analysts said the prices of too many "key commodities" were as yet untouched for recent spectacular reductions to be followed by a general retail decline soon.

Many retailers, in spite of post-Easter sales, slashes in hard-to-move goods, and publicized across-the-board cuts by communities, said they could do little about general price reductions until manufacturers did.

At that level the finger was

Names Woodstock
Woodstock would send pupils above sixth grade under plan

Centralization of school districts in the towns of Olive, Shandaken and Woodstock would accommodate an estimated 788 pupils and probably more, Reginald R. Bennett, district superintendent of the Fourth Supervisory District, said today.

The proposal, which was recently the subject of an intensive study by the State Education Department, Bennett said, if adopted by the voters, will probably mean no school building before 1950, but it is planned to "centralize the area and operate under the centralization law until new buildings are ready."

Bennett explained that as soon as the study is evaluated, the results will be sent to the 29 school districts that comprise the proposed centralization. A booklet with all pertinent information will be circulated for thorough study by the voters before a final vote is taken.

Following are Mr. Bennett's statements in his communication to The Freeman:

If the proposed centralization, which the Rapp Committee incorporated into the state's master plan and recommended to the commissioner of education, is approved by a majority of those voting in the three towns, it will be one of the largest and richest centralizations in the state.

At present the Town of Olive has 196 pupils, grades 1-12; Shandaken has 250 pupils; Woodstock has 286 such pupils. Two districts in the Town of Lexington (Hyndstreet Hollow and Bushnellville) are included in the proposed centralization and they have 16 pupils. The total number of pupils is 788, but under centralization the number would be larger because kindergarten children would be added. It is believed that where a high school is built in the area more local pupils will stay in school until they graduate. Under present conditions, all pupils in grades 9-12 commute to high schools outside of the towns, and the per cent of those in the academic field who do not graduate is large. Route 28 goes through the length of the Fourth Supervisory District, which includes the Towns of Olive, Shandaken and Woodstock, and on this route there is no high school between Fleischmanns and Kingston, a distance of 40 miles or more.

12-Grade School
Under the three-town plan, a new 12-grade school with kindergarten will be built between Mt. Tremper and Boiceville. A new 6-grade school with kindergarten will be built in Woodstock. The Pine Hill school will be renovated and used for pupils K-5 from various adjoining districts. One of the schools in Olive will be renovated and used for the lower grades from certain districts in south Olive.

The Pine Hill area is farthest from the proposed site of the high school. The distance is about 18 miles. Olive Bridge, Krumville and Sansonville in Olive are 12 to 14 miles from that site. Woodstock village is 10 miles from the proposed high school site. All other districts in the Town of Woodstock, with the exception of Zena, are less than 10 miles from the potential high school.

The three-town proposal calls for one of the finest rural school systems in the state. There would be enough pupils and enough real valuation to warrant having the kind of modern buildings, curriculum, and extra-curricular opportunities that rural boys and girls are rightfully entitled to enjoy. Special teachers in art, music, agriculture, industrial arts, and physical education would be regular members of the school faculty.

A full time school nurse would be employed and also a dental hygienist who would work either part time or full time. This is the kind of modern school the State Education Department recommends for an area whenever such an excellent program can be carried out.

Justice Hughes Contributes To Kingston Y.M.C.A. Drive

The following letter was read at the opening of the Kingston Y.M.C.A. financial drive for \$20,000, held Thursday evening and shows that Kingston and its worthwhile institutions have a warm spot in the heart of one of the most prominent jurists of our country. Justice Hughes is a former Governor of the State of New York and former Chief Justice of the United States Supreme Court. Justice Hughes' mother was a sister of the late State Senator Henry C. Connelly of Kingston.

SUPREME COURT OF THE UNITED STATES
Washington, D. C., April 23, 1947

Dear Mr. McEntee:
I have received your letter of April 18th and I am glad to send you a contribution for the Y.M.C.A. in Kingston. The demands of national organizations and the local requirements of the charities in Washington are so heavy that I have been compelled to make it a rule not to give to local charities elsewhere. However, in view of the relation of my mother's family in Kingston, I am happy to make an exception in this case. I wish I could make a larger contribution.

Wallace Says Jewish Actions Necessary to Arouse World

Paris, April 25 (AP)—Henry A. Wallace declared today that a Jewish resistance movement in Palestine had been necessary to "arouse the conscience of the world."

Expressing faith that Britain would solve the Holy Land problem and hope that it would "carry out the original Balfour Declaration," the former American vice president told a news conference that "there can never be peace in the world until justice has been done the Jewish people."

"I sympathize with the British and I deplore terrorism," Wallace said. "I have never believed in force of arms or force of money. But we do have to recognize facts. I think it has been necessary

for the Jews to conduct what amounts to a resistance movement of their own to arouse the conscience of the world."

"I hope that the acts of terrorism will now cease and that the British people will carry out the original Balfour Declaration."

The Balfour Declaration of November 2, 1917, put the British government on record as favoring the establishment in Palestine of a national home for the Jewish people.

Wallace, rushing through a last busy day before flying tonight to the United States, where he will make a speaking tour next month, dashed from the news conference to a luncheon engagement with Leon Blum, former premier, and

an associate in medicine at Columbia University College of Physicians and Surgeons and associate visiting physician at Columbia University division of Bellevue Hospital, New York.
At last night's session, a resolution was spread on the minutes of the meeting honoring the late Judge Joseph M. Fowler, who served in the Ulster county fight against tuberculosis for 37 years, and officers were elected for the ensuing year. The resolution was read by Dr. M. Elizabeth Moore.
Harry S. Ensign was re-elected president with the following panel to act with him: Sidney K. Clapp and James F. Loughran, vice presidents; Alfred D. Ronder, treasurer and Katherine M. Murphy, R.N., secretary.
Directors for the 1947-1950 period elected were:

Vernon A. Barnhart, Stone Ridge; Sidney K. Clapp, Kingston; Mrs. James B. Crowell, Wallkill; Mrs. William Cruickshank, Big Indian; Mrs. Joseph Deegan, Kingston; Dr. Frederick W. Holcomb, Kingston; Edward M. Huben, Rosendale; Mrs. Raymond Richards, Highland; Charles Snyder, Kingston; Herbert E. Thomas, Kingston; Ira V. D. Warren, Kingston; Dr. Leonard McCambridge, Kingston.

Two Clergymen Named
On recommendation of the nominating committee two vacancies on the board of directors were filled by the appointment of the Rev. Edward Barry of St. Francis de Sales Church, Poughkeepsie, to replace the Rev. Thomas R. Leary, who was transferred to Texas, and the Rev. Herbert Killinder, pastor of Trinity Methodist Church, Kingston, to replace the Rev. Wesley Williams, pastor of St. James Methodist Church.

The meeting was opened by President Harry S. Ensign, who turned the gavel over to Dr. Bibby for introduction of Dr. Riggins. After mentioning the doctor's background in TB work, Dr. Bibby said the speaker would furnish his listeners with a glimpse of the future in the war on tuberculosis.

Really 2,000-Year Fight
Dr. Riggins prefaced his remarks by pointing out that the Italians knew about tuberculosis 2,000 years ago, that it was an infectious disease and that isolation was necessary to prevent its spread. He cited health regulations calling for cleansing of living quarters after death of patients, the same as is done today. Tracing research, he came to the more modern procedure such as tests and X-rays, the things that have paid dividends up to the present, and recommended that the nation, state and counties devote all funds possible towards the control and eradication of tuberculosis. "This is the only way in which we can accomplish our aims in the tremendous job of research," he said.

He was elated over the generous move of western areas in deciding to give health funds to other sections where tuberculosis is more

prevalent, to help wipe out the disease.
After tracing the accomplishments with sulfa drugs, and penicillin in the treatment of other infectious diseases, Dr. Riggins passed on to the discussion of streptomycin, in relation to tuberculosis.

About Streptomycin
Forward strides have been made in tests with the new drug on guinea pigs, he explained, but as far as humans are concerned there is much to be learned about the use of streptomycin. Extensive laboratory study is required, he remarked, and funds are necessary to carry on this phase of the work.

Dr. Riggins enumerated some of the ill effects of the drug that have to be overcome in its use such as dizziness, vertigo, deafness, skin rash and nausea. He added that it is not advisable to use streptomycin in certain types of TB, or on patients in the advanced stages of the disease.

Has Significant Effect
Although the exact limitations of the drug are unknown as yet, Dr. Riggins advised that "never before in the history of man has one been found with as significant effect on certain types of the disease." He repeated his urge for more laboratory funds for research and advised that "Streptomycin is not the magic bullet but is important in the control and eradication of tuberculosis."

"The future betterment of control lies in the field of research," he added, "and this is the reason why much thought should be given to spending health funds on tuberculosis."
Chairman Bibby's commentary at the end of the discourse was: "Dr. Riggins, your talk was very stimulating. You have shown us where our duty lies. We shall do all in our power to help."

Local Workers Praised
After paying tribute to the efforts put forth by the late Judge Fowler, Dr. Bibby recited the qualifications of his successor in the office of Ulster TB and Health President Ensign. "We are fortunate in having him as our leader now," he remarked because of his association with Judge Fowler for the past 15 years in this organization.

Dr. Frederick Holcomb was cited for his 15 years of successful administration at the TB Hospital as director, and Dr. George W. Weber was introduced as his capable successor, with an extensive background in tuberculosis work. Dr. George James was presented as the highly qualified director of the new Ulster County Health Department that started functioning in January in conjunction with the State Health Bureau.

Record Seal Sale
E. P. Rochford, superintendent of Hercules Powder Co., Port Jervis, was introduced as the dynamic personage who led the Christmas Seal sale to its highly successful conclusion, making an all-time record of over \$21,000 collected in the county.
The Rev. Dr. F. B. Seeley, pastor emeritus of Fair Street Reformed Church, was praised by Dr. Bibby for his work with the association since 1909 when he joined the original committee for health.

Others commended for their work were Dr. M. Elizabeth Moore as successor to the late Dr. Mary Gage Day since 1934, Charles Snyder, serving since 1931 as treasurer of the organization, and Miss Katherine M. Murphy, R.N., secretary, whose capability goes a long way in the effective work of the TB and Health Association.

Regret was expressed over the absence of Dr. John A. Kingsbury, who was a fellow committeeman of Judge Fowler in organizing the association.
Resolution on Fowler
Following is the resolution read on Judge Fowler:
WHEREAS, it has pleased Almighty God to remove from midst the material body of Hon. Joseph M. Fowler, who for thirty-seven years has served as President of the Ulster County Tuberculosis and Health Association and who was unwavering in his devo-

tion to his profession, gained high honor both among his associates and in positions attained and whose services to his fellow man has left a memorial to him far greater than any which our words can now establish and who worked untiringly for the building of the hospital at Golden Hill and which may justly be considered as one of the monuments to his memory, now, therefore be it
RESOLVED that we the Committee on Resolutions appointed by the Board of Directors of the Ulster County Tuberculosis and Health Association, do record with sorrow the passing of the spiritual body of our former President and we request that this resolution be spread in full upon the minutes of

the Association and that a copy be sent to the family of the deceased.

Flashes of Life Sketched in Brief

Fast Trip
Syosset, N. Y., April 25 (P)—A woman, apparently ending a large evening on Long Island, hailed the last train out of here last night at the last possible minute.
The conductor yanked the cord and brought the train to a stop down the track away. He shout-

ed: "Hurry up, lady, where do you want to go?" She puffed up with the word: "Syosset."
Wearily, the conductor pulled the cord again, as he told her: "You're in Syosset, lady."

Mark of Distinction
Chicago, April 25 (P)—Andrew Russell, Jr., 12, isn't boring his pals with the details of how he caught his trouser cuff in the sprocket of his bicycle, then bumped into an automobile.
More important to Andrew than his peril is what was said and

done by the automobile driver who took the boy to a hospital for treatment of a minor scratch on one hand. Not even the autograph hunters around Comiskey Baseball Park could beat that, Andrew believes, because the driver and companion on the trip to the hospital was Thornton Lee, White Sox pitcher. Lee was not held.

Late Application
Waukegan, Ill., April 25 (P)—There was a long line of war veterans making applications for the Illinois state bonus but three of the ex-service men found they were late—by nearly 20 years.
The three applicants were veterans of World War I. The deadline for filing applications for the first war bonus was Sept. 9, 1927.

Mrs. Peelor Is Appointed
Albany, N. Y., April 25 (P)—Mrs. J. Rodney Peelor of Poughkeepsie, was appointed today by Governor Dewey to the board of visitors of the Hudson River State Hospital, Poughkeepsie. She succeeds Mrs. Mary W. Conger of Poughkeepsie for a seven-year term.

Reader Service Teach yourself to TYPE

Touch-Typing Easy

The easiest way to do anything is the correct way. And that goes double for typing! Just think of all those precious minutes wasted in the hunt-and-peck method. Added up, they represent more than enough time to learn how to type correctly. By touch, of course!

You can easily learn the touch system at home. A simple keyboard chart shows you how to place your fingers so you can strike any key without looking. By keeping your eyes steadily on your work, instead of darting back and forth to your hands, you can type faster and more accurately.

Once you've mastered the keyboard through drills and exercises, you are ready to put your knowledge to practical use. Letters and other business forms are the next step.

Our Reader Service booklet No. 13 gives a home course in typing. Explains the operation of a typewriter. Has keyboard chart, helpful drills and exercises. Also explains how to type manuscripts, statistics, business and social letters, addressing envelopes.

Following is the resolution read on Judge Fowler:

WHEREAS, it has pleased Almighty God to remove from our midst the material body of Hon. Joseph M. Fowler, who for thirty-seven years has served as President of the Ulster County Tuberculosis and Health Association and who was unwavering in his devo-

tion to his profession, gained high honor both among his associates and in positions attained and whose services to his fellow man has left a memorial to him far greater than any which our words can now establish and who worked untiringly for the building of the hospital at Golden Hill and who may justly be considered as one of the monuments to his memory, now, therefore be it

RESOLVED that we the Committee on Resolutions appointed by the Board of Directors of the Ulster County Tuberculosis and Health Association, do record with sorrow the passing of the spirit body of our former President and we request that this resolution be spread in full upon the minutes of

the Association and that a copy be sent to the family of the deceased.

BRITISH GRATITUDE

A faculty member from each of the 45 American schools attended by children from Oxford who were cared for here during the war, is invited to summer school at Oxford University this year. A fund begun in 1940 that already has reached \$68,000 is to be used, with \$400 being placed at the disposal of each teacher on arrival in England.

The majority of the English boys and girls, now safely back in their own homes, came under the care of the Yale Faculty Committee which is donating a surplus of \$28,000 to the program. Other English parents of children cared for in the United States have developed similar plans to show their gratitude. One is Nottingham, called the Kinsmen Trust, has been set up to bring to England children of those Americans who were hosts to the war-orphans.

Since British Treasury regulations do not permit money to be sent out of the country, the English parents hit on these schemes to bring Americans to them. There are many plans for sightseeing in the British Isles as well as study for the American guests.

Such exchange of individuals of two countries on a friendship basis, is a heartwarming evidence of international accord.

Speaking with regard to the recent adventures of Henry Wallace, a frank lady says, "the trouble with men is that they talk too much." And maybe they do, sister—maybe they do. But where did they learn it?

SELF-DETERMINATION

Woodrow Wilson may be responsible for some of the French troubles. He advanced the doctrine during World War I that peoples should have the right of self-determination, that is, should be able to choose whether they should be independent or ruled by others, and if the latter, should be permitted to select their rulers. This was primarily designed to shatter the Austro-Hungarian empire with its multitude of peoples, and had that effect. It also found unexpected echoes the world over. Ireland and India have pleaded self-determination in their efforts to escape British control. Now the French are hearing the same cry from their subjects in Indo-China and Madagascar.

North Africa is the latest trouble spot. The Arab League is stirring up unrest in Tunis and Algeria. Just the other day the Sultan of Morocco, another French possession, announced his sympathy with the Arab League.

North Africa may not yet be ripe for independence, but she will continue to be heard from, more and more pressing, until she gets it.

Some people think labor can do no wrong, and others think capital can do no wrong; and as a matter of fact, they're both wrong. How about Congress?

JUMPING BEANS, MAYBE?

Henry Wallace stirred up a much bigger rumpus than might have been expected. As a result, in the opinion of a great many people, the matter has amounted to just a little more than a hill of beans. Thus, as the Cleveland Plain Dealer observed, "the more he talked, the more he hurt himself." It was a good lesson on the merits of discreet silence.

We can't help wondering how a certain volunteer American statesman, now in England, manages to get along so quietly. Is it the climate, or what?

HANDSHAKING NOT NEEDED

Charles E. Hughes has just been celebrating his 85th birthday. As governor of New York, secretary of state, associate justice of the Supreme Court and later as chief justice, Mr. Hughes has adorned public office and deserved well of the American people.

Not the least of his services is his demonstration that an official does not need handshaking graces to hold his place in public life. He has been rather on the austere side, yet that has not affected public confidence in him. Although in 1916 he did miss the presi-

CHINA TRIES AGAIN

What so many younger discourses on China's woes seem not to know is that that ancient people have been bungling along their courses for a very long time. And it will take more than a book by a youthful American to undo the habits of a people which are grounded deep in the soil of their own traditions. And somehow also China manages to survive although her conquerors do not—which is not altogether discouraging.

So it is that now China has survived her Japanese conquerors. Whereas, 20 years ago, the state of China seemed to be as hopeless as it is today, Japan was a mighty nation, among the five greatest on earth. Yet while the Japanese are a conquered people, practically a fief of the United States, China still muddles along, somehow managing her own affairs, somehow holding together. No Japanese president over the Security Council of the United Nations, but a Chinese did—and probably the most able of them all. If the pace of China is slow, it is not self-debating; if the Chinese are not as nationalistic as the Russians, they are also not as severe a problem to the rest of mankind.

China is now attempting to utilize a new Constitution. Back in 1924, the Kuomintang, under the leadership of Sun Yat-sen, founded a revolutionary government which in time placed Chiang Kai-shek at the head of the state. But Chiang was never a dictator; he headed a state, which, according to Dr. Sun's principles, was held in "tutelage" by a political party, the Kuomintang, until such a time as the people are ready for self-government. Dr. Sun, when he wrote his "Three People's Principles," had to recognize that the great mass of Chinese were not ready for self-government.

Under pressure from the United States and Soviet Russia, the Chinese have now declared themselves ready for some kind of democratic government. Although nothing particularly notable has happened between 1924 and 1947 to prove that the Chinese are more ready now than they were then for self-government, to meet foreign pressures the Chinese seem willing to try anything.

So a new government, headed by General Chang Chun, has come into existence under the general presidency of Chiang Kai-shek. China no longer under the tutelage of the Kuomintang; other parties are admitted into the government. It is a curious story, but whether it can work or not is not terribly important because Chiang Kai-shek will, in the final analysis, be the boss.

With General Chang Chun as his prime minister, a classmate of Chiang's in a military school in Japan and his friend and intimate associate during all these years, there is no possibility of a rift between them. In fact, Chang Chun has long been a general pinch-hitter for Chiang.

But there is more to this situation than that. The new administration includes some of the most competent bankers and business men of China. Chiang, Kia-ngau, formerly head of the Bank of China and for a prolonged period recently a resident in this country, is broadly charged of economic policy, in which work he will be assisted by K. P. Chen and Li Ming, bankers of the highest probity and undoubtedly among the best known Chinese in the United States. The fact that this group supports Chang Chun's cabinet will increase respect for its responsibility.

None of them remain in the government. T. V. Soong is out and his brothers play no part whatsoever in the affairs of China. And apparently his brother-in-law, H. H. Kung, is out of office. The objection to the Soongs was widespread and Chiang finally had to bow to the public will, which is always strong in China. It is not clear what the active business T. V. Soong will do, but those in power are not his friends and they are not likely to welcome him in any capacity.

So China starts anew and very hopefully. This is an anti-Communist government, one that can bend like a willow if need be, but that also has many of the sturdy characteristics of the oak. China will not go under in their hands.

That Body of Yours

By James W. Barton, M. D.

TWO KINDS OF CONSTIPATION

I was giving a talk to a service club and stated that constipation was present in nearly half the population, which accounted for the large sales of purgatives and laxatives. Later, a member of a large clinic with specialists in practically all branches of medicine and surgery told me that about 80 per cent of the patients gave a history of constipation.

There are two kinds of constipation one due to sluggishness of liver, gall bladder and lower bowel, the other due to nervousness and emotional disturbances causing an irritation of the lower bowel, which caused spasms and prevents wastes moving downwards and out of the body.

Naturally the treatment for constipation caused by a lazy bowel is different from that caused by an irritable bowel. The lazy bowel needs rough foods to stimulate it; the irritable bowel would become even more irritable by use of rough foods. One of the common causes of the lazy bowel is not taking time in the morning to eat a hearty breakfast, which by its very weight in the stomach sends impulses all the way down through small and then large intestine which drives wastes downward and outward.

If the individual with the lazy bowel would get up about fifteen minutes earlier, eat a hearty breakfast, go to stool and sit a few minutes nature will soon establish a regular bowel habit.

The stomach has had a rest for 12 to 14 hours, it is ready for food and if meal is medium to large stimulation of the whole food canal occurs. If the large intestine does not stimulate bowel movement sufficiently, rough foods should be eaten, such as cereals, whole grain bread, tomatoes, cabbage, lettuce with a little fat—butter, cream, bacon to help empty the gall bladder.

For the spastic bowel, causing constipation, rough foods should not be used as they cause alternate diarrhoea and constipation. A spastic bowel resembles an old inner tube of an automobile tire with bulges and tight or narrow parts. The treatment for spastic bowel is trying to acquire calmness of mind, bending exercises with knees kept straight and soft but nourishing foods such as steaks, eggs, lamb, cooked and strained fruit juices, liquids including buttermilk.

Lifelines

C. R. DOUGLAS

This column recently compared the growth of Poughkeepsie with that of Kingston which 42 years ago was a larger city. "The Bridge City last week paid tribute to the men, whose faces, if not backgrounds, are known to virtually everyone in the nation, and who as an industrial team were a major factor in the growth of our neighboring community," the Smith brothers, William W., the original "Trade" and Andrew, the original "Mark" of the cough drop box combination.

A community celebration, marking "100 years of service of Smith Brothers Inc." in a military school in Japan and his friend and intimate associate during all these years, there is no possibility of a rift between them. In fact, Chang Chun has long been a general pinch-hitter for Chiang.

The Bridge City went heavily hirsute with special beard-growing contests and retrospective demonstrations in observance of the anniversary climaxed by a banquet which drew a crowd of 1,000 at the state armory.

Few if any trade-marks through the years are better known than that of the pilose likenesses of the two brothers reproduced on the millions of boxes of cough drops sold since the familiar illustration first appeared. It was proved the value of the trade-mark in advertising, time and again, and provides one of the best opportunities in the nation for a study through many generations of the value of that particular kind of advertising.

In presenting highlights of the beginning and growth of the industry, the Poughkeepsie New Yorker reported that the Smith family arrived in Poughkeepsie in 1847 and established a family business. It is believed to be the first manufacturer of "cough candy" which later became the famous Smith Brothers cough drops, and was started shortly after the arrival of the family.

James Smith & Son held its first exhibition at a Dutchess County Fair on Oct. 6, 1849 and on May 29, 1852. It was signed by the "Trade" or William W. Smith, opened the "Washington Garden Ice Cream Saloon," at 23 Market street, under the name of William Smith & Company.

The first "cough candy" advertisement appeared in the city on Dec. 10, 1852. It was signed by William Smith. The Smiths came to Poughkeepsie from Canada and in September, 1854, James and his wife Ann and their son William W. (Trade) Smith, were admitted to U. S. citizenship.

The restaurant at 13-15 Market street, which is still in operation, was bought by James Smith in April 1859.

William Smith, first generation of the family to be in business in Poughkeepsie, died in 1861, and on August 15, 1864, James Smith & Son dissolved partnership and formed a new partnership under the name of James Smith & Sons. It included James Smith, second generation in Poughkeepsie, and his sons, James Smith, Jr., and Andrew (Mark) Smith, the third generation of the family in the city.

TELEPHONES HIT RECORD HIGH

Some days ago, writing about the nation-wide strike of telephone workers of the N.E.T.W., I referred to the Bell system as a monopoly—a designation which I believe is generally recognized by our regulatory bodies.

But because I failed to mention the existence of a large number of comparatively small independent telephone companies that article must have left the impression that there were none such; and for this impression I have been taken to task by Harold V. Bozell, president of the General Telephone Corporation.

Mr. Bozell sent me a folder packed with interesting information about the independent telephone business in this country, which I pass on to you because it probably will surprise you, as it did me.

"These independent telephone companies," wrote Mr. Bozell, constitute what is probably the largest aggregation of 'small business' in the country, and most of them are not directly concerned in the present controversy (the strike) except that they are unable to complete toll calls which have to pass wholly or partly over Bell owned lines."

A glance at the map accompanying this folder which shows most of the independent companies, gives me a fresh appreciation of the bigness of American industry. There are 12,000 exchanges operated by some 6,000 independent companies. At the end of 1946 these companies served 5,350,000 instruments.

This is big business, in the aggregate. Yet by comparison with the Bell network it is small, for the latter affiliates own nearly 26,000,000 instruments.

The figures show America's total telephones at an all-time high in number, 31,650,000—far overshadowing such facilities for the rest of the world. In fact, the independents alone serve more telephones than there are in Great Britain and France combined.

Most of the independent companies are small fry, but thirty-one of them grossed more than \$1,000,000 each in 1945; 184 others grossed more than \$100,000 each, and 49 fell into the group between \$50,000 and \$100,000.

These figures need not, however, give the impression that the telephone business in this country is competitive. It is not. During the first quarter of this century there was much buying up of the independents, and some buying of Bell companies by independents, to eliminate duplicate, competitive systems within the same communities.

Today, there is probably not a single community in America served by competing systems. The only competition seems to be in the matter of inventions and patents.

Why have we permitted such monopolies to continue? Are they not in violation of the Sherman and Clayton anti-trust laws? Admittedly yes, in the technical sense. But the grocers and the taxi drivers and the newspaper people and everybody else who used tele-

ried it on as "Smith Brothers." A new factory was built in 1915 and in 1919 the business was incorporated by Arthur G. William W. 2nd and Robert L. sons of Arthur G. as Smith Brothers Inc., covering both the cough drop and the restaurant business. Plant No. 2 was completed at Michigan City, Ind., in 1920 and the menthol line was added in 1922.

Arthur G. Smith, fourth generation, died in 1936 bequeathing the business to William W. Smith 2nd and Robert L. Smith, fifth generation. The company was reorganized in 1937 under the Delaware charter as Smith Brothers Inc., with a change in the stock arrangement.

Taft's Defense of Labor Measure Considered 'Lame'; Better Than Wagner Act for Unions

By DAVID LAWRENCE

Washington, April 25—Senator Taft has made a rather lame defense of his labor bill. The measure is in some respects even better for the labor unions than the existing Wagner Labor Relations Act.

True enough, the bill introduces some new mediation machinery and puts upon labor some obligations never before written into a statute. But, on the so-called "free speech" issue, the bill reported by the Senate committee merely confirms all the erratic decisions of the National Labor Relations Board over the last ten years.

Here, for instance, is the language of the Senate bill:

"The National Labor Relations Board shall not base any finding of unfair labor practice upon any statement of views or arguments, either written or oral, if such statement contains under all the circumstances no threat, express or implied, of reprisal or force, or offer, express or implied, of benefit."

This language narrows considerably the rights of the employer to file with the Supreme Court of the United States and by the federal courts in reversing Labor Board decisions. It cuts the ground from the court decisions and restores to the Labor Board the full power it thought it had before the courts began reversing the board.

For there never has been a single case over the last ten years of decisions by the National Labor Relations Board involving the so-called "free speech" issue in which the board has ever limited that it based a finding solely on statements or arguments that were devoid of threat or implied benefits. Again and again, the examiners for the board have found and the board has upheld findings that an employer had addressed his employees, either orally or in writing, but that his words were of an intimidating character or were threatening or were tied up with acts that were clearly indicative of an anti-union attitude.

The new Senate bill, if enacted, indeed, that the Labor Board will have no trouble with the courts hereafter. Either the board will find that an employer threatened employees with loss of benefits or that he offered them "benefits" or that he refrained from choosing a union as bargaining agent.

This effort by the Senate bill to narrow an employer's rights contradicts the expressions of the courts, where it has been plainly said that an employer may discuss unionism and even oppose the unionization of his plant and that he is free from an "unfair labor practice" so long as he doesn't threaten group action or individual punishment to those engaged in union activity. An employer, on the other hand, has had under past court decisions the right to point out wherein his employees would not benefit from unionization or he has had the right to point out that he does not believe he can operate as efficiently under union as under non-union auspices because of the necessity, for instance, of conforming to some national pattern which his larger competitors can meet and he cannot.

Under the language of the Senate bill, the Labor Relations Boards of the future would have no difficulty declaring "unfair labor practices" to drag out the workers into unions. This flagrant abuse is not touched by the Senate committee, though it does write into the bill a clause that allegedly balances the clause in existing law with reference to interference by an employer in the affairs of the workers in choosing a bargaining agent. Senator Taft defends the new clause, which prohibits unions from interfering in the selection of a bargaining representative by the employer. Actually these are rare instances and could be amply covered by a slight change in an entirely different provision of the bill, stating that it is an unfair labor practice for labor unions to refuse to bargain with the representatives chosen by an employer.

Unions really are not concerned with the process whereby the employer's bargaining representatives are chosen or any actual methods used in selection. The unions are concerned with the representatives that are chosen, but this is a "refusal to bargain" and not an interference with the process of selection. Some of the senators who wrote the committee bill appear to be neophytes in the writing of labor legislation and are falling for some of the tricks and devices that have given the labor board so much power in the past.

BABSON on BUSINESS

BABSON LOOKS AHEAD

Eureka, Kansas, April 25—I hope I am wrong; but the following is a brief summary of my vision for the next five or more years whatever Russia may do. This, moreover, is based upon forty years of forecasting experience and the expenditure of millions of dollars on business research.

(1) I am reasonably sure of at least two more years of fair business. If the U. S. adopts the right international policy, this can be extended to five years or more. Certainly, the agricultural sections out here are happy and see no reason for any business depression.

(2) My manufacturing friends are very much up in arms and state demands and believe that "sooner or later" we will witness a Great Depression with millions of unemployed. Commodity, real estate and stock prices will be very much lower than at present, they claim.

(3) When visiting Washington, I find a belief that unless Russia collapses in the meantime there will then be a Communist uprising in the U. S. If our Federal Government is not then taken over by the Communists, through democratic procedure, certainly state and city governments certainly will be. Yes, Washington is very jittery, and President Truman is scared blue.

(4) If these Congressmen are right, a panic of tremendous proportions could take place with people leaving the big cities and seeking refuge in the self-sustaining sections of the Central West. I refer to areas with their own food, fuel and housing supplies and which are not dependent on railroad transportation.

(5) If that time comes, or when the danger is fully evident, it will be too late to prepare for it. You cannot take out fire insurance on your house when it is burning! Yet, today there are several ways to prepare yourself and family both against communist uprisings from within and Russian bombs without.

Both of these factors would dangerously affect industry in and around many large cities. The first "hedge" would be to migrate with your families to some small interior city in the Central area of the United States. If you don't care to take so definite a step now you can at least now make a start by re-arranging your investments.

In the light of this situation there are three classifications of investments to be considered. These are Safest Investments, Bomb Targets and Semi-Protected Investments.

Safest Investments should include those companies whose assets or sources of materials are decentralized, or underground or in the mountains.

The Davenport team of the Ulster County Gun Club finished 42 birds ahead of the E. Davenport team in a final April match. Mrs. Alice Baker, widow of Henry Baker of Morgan Hill road, Stony Hollow, died at the Kingston Hospital.

Clinton Avenue Methodist Church, was greeted by a large turnout of the congregation at a special service.

The great question in these times is whether or not a man selected to represent this nation in the capital of a foreign country will be more deeply sympathetic to the United States than to the plight or peril of the foreign country.

The summer session at New Paltz State Teacher's College will open June 30 and will offer a special workshop in early childhood education in addition to the usual six and eight-week sessions of college courses. The workshop and the six-week session will run until August 8 and the eight-week session until August 22. The workshop will give teachers of children three to eight years old an opportunity to study problems which have grown out of their own daily work with youngsters. An experienced staff headed by James

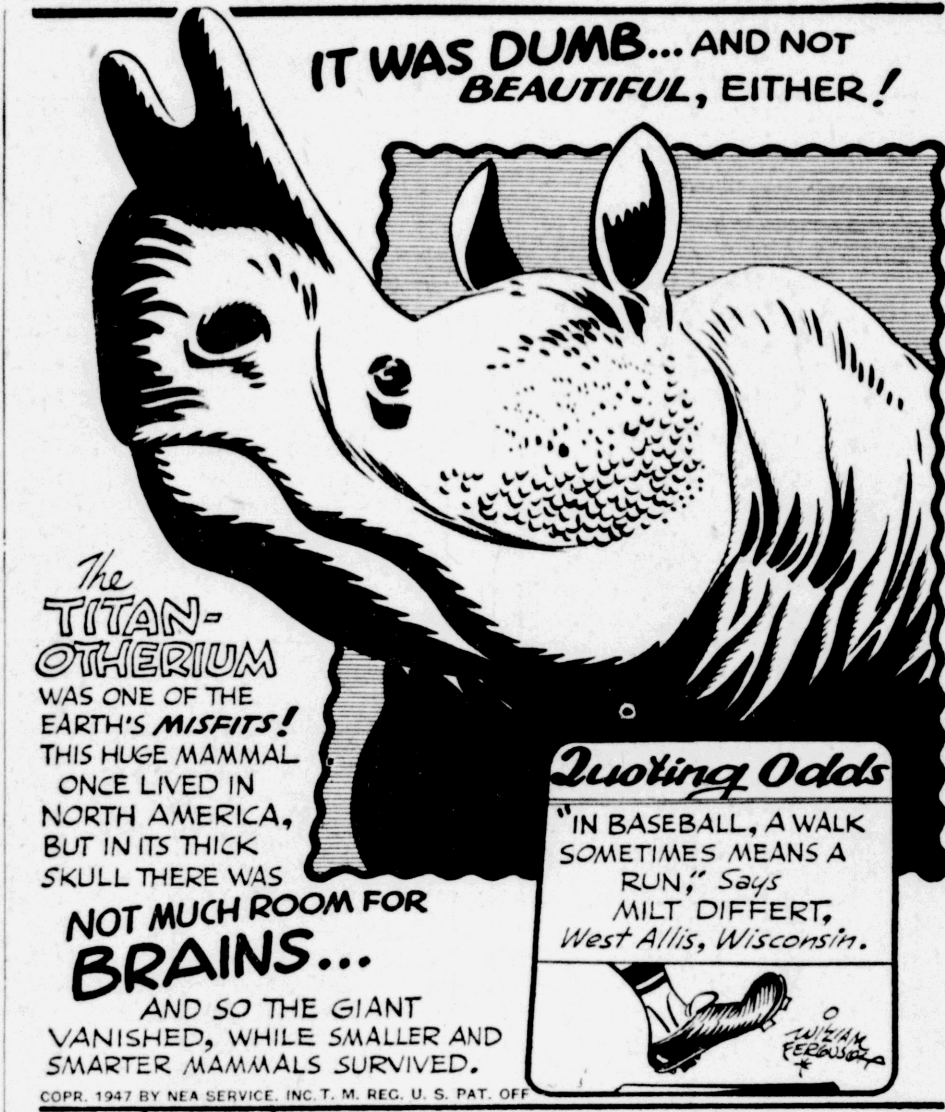

L. Hymes, Jr., coordinator of early childhood education at New Paltz, will conduct group meetings and individual conferences. The six-week session offers college credits to those who wish to complete a four-year degree. The longer session is intended for students on the three-year program.

Benjamin H. Matteson has announced the "A" teachers for the last quarter junior teachers in the Campus School. Those students receiving "A's" are Anne Riccardi, Marilyn Miller, Veronica Melanson, Fannie DeCicco, Marie Ambrose, Rosemary Louv, Irene Brenish, Agnes Adams, Barbara Turfner, Joseph Moser, Jean Schecter, Marie Babski and Alice Lang.

About 6,500 alumni of the New Paltz State Teacher's College will hold their first post-war reunion at the college May 10. The meeting, first since May, 1942, will renew regular alumni gatherings at the school. The program will include a luncheon at 12:30 o'clock which will be followed by the installation of a plaque dedicating the practice school to Dr. Lawrence H. van den Berg, former president of the institution. A business meeting will be held at 2:30 o'clock to elect officers and an afternoon concert by the college students will follow. Dr. W. J. Haggerty, president of the college, requests all graduates to attend the reunion.

Epsilon Delta Chi will sponsor the assembly program on April 29 which will feature a play entitled "We Hold These Truths," the theme of which is the modern application of the Declaration of Independence. The play will be presented by the pupils from Miss Gertrude Strohle's eighth grade and Leslie Oakley's seventh grade. The announcer for the program will be Harold Schoonmaker. The play was started as a social studies group project.

Three members of Kappa Delta Pi and two faculty members will attend the regional conference at Cortland State Teacher's College during the week-end of April 25. The members elected to represent

the Beta Zeta chapter here at New Paltz State are Jane Simms, Joe Castellano and Calvin Sloan. The faculty members are Miss Ruth Mack Havens, faculty adviser and Miss Jeannette Van Arendonk. Kappa Delta Pi will hold its first banquet of the organization May 10 at the Old Fort, Jane Simms, Jean Holliday and Dorothy Anne Feuerriegel compose the committee in charge.

The first breakfast hike sponsored by the Outing Club was enjoyed by 60 students. Mildred Kievesahl, Lois Whittaker, Dave

Anderson and Frank Austin were on the committee in charge. The group arrived at Stone Woods at 5:40 where they built a fire and had coffee ready for the others who arrived a little later. They brought with them eggs and bacon to fry, and bread for toast, oranges and other breakfast items. All were back for their 8 o'clock classes at the college.

Every living human being on earth today, it brought together, could stand in a single field only 12 miles square.

Willa Cather, 70, Is Victim of Stroke

Pulitzer Prize Winner in '23 Dies in New York

WILLA CATHER

New York, April 25 (AP)—Willa Cather, Pulitzer prize-winning novelist, died of a cerebral hemorrhage late yesterday at the age of 70.

Her works included "My Antonia" (1918), "Death Comes for the Archbishop" (1927) and her last, "Sapphira and the Slave Girl" (1940).

The Pulitzer award was given for "One of Ours" in 1923. Although born in Virginia, Willa Sibert Cather was reared in Ne-

braska, and many of her novels had midwestern settings. Miss Cather was for six years managing editor of "The Lure's Magazine" before beginning her career as a novelist. Her first novel was "Alexander's Bridge," published in 1912. Earlier, however, she had published verse and short stories.

She had lived in New York many years. Surviving are two sisters, Miss Elsie Cather of Lincoln, Nebr., and Mrs. Jessica C. Auld of Palo Alto, Calif., and James D. Cather of Long Beach, Calif.

Says Reds Seek Uranium

Munich, April 25 (AP)—A German businessman who spent several weeks in the Russian zone asserted that Soviet engineers were turning a mountainous area of Saxony into a great mining region in a "frantic" search for uranium—key to the atom bomb. (American experts, speaking unofficially in Frankfurt, said the German's statement was "possibly true," but warned that his story might be a "plant.")

Gun Permit Surrendered

Hollywood, April 25 (AP)—Actor Frank Sinatra has surrendered his gun-carrying permit, the sheriff's office disclosed last night. Revocation of the permit came after Sinatra's fistfights in a Hollywood night club with Lee Mortimer, New York columnist. The crooner is awaiting trial May 28 on a battery charge brought by Mortimer. The gun permit, incidentally, listed Sinatra's occupation not as a crooner but as "film star."

Like a look at your Future - RIGHT NOW?

JUST pause a moment on any corner of the smartest street in town.

Wait till you see this gleaming grille bearing down on you — these long fender lines sweeping past — this trim rear bumper flashing its farewell.

That's not just the new '47 Buick you're seeing, but the tip-off on tomorrow as far as car styling is concerned.

Here's the long, low, sweeping look designers even now are striving to equal.

Here's the broad beam that tells of plenty-room, the proud bearing that spells power and ability and steady road-wise going.

We're not saying you'll match this flashing action elsewhere — Buick's frugal Fireball combustion principle

and Accurite cylinder finish give us pretty much of a corner on that.

And not everywhere will you find the fluid stride, the ever-easy comfort of soft, BuicOil springing on all four wheels. Only Buick, after all, can be all a Buick is.

But here's the way the smartest cars will dress themselves — for a long

while to come. Here's a high-styled high stepper that will keep you among the first-in-fashion for years and years.

That being so—why hesitate? There's no smarter step you can take to make your dollar count and cut your waiting to the minimum — than to get your order in now.

ONLY BUICK HAS ALL THESE STAR FEATURES

★ AIRFOIL FENDERS

★ FIREBALL POWER — from valve-in-head straight-eight engines in two sizes.

★ BUICOL SPRINGING — Buick-developed all-coil springing for perpetual smoothness and "panthergait" ride.

★ FLITWEIGHT PISTONS

★ SILENT ZONE BODY MOUNTINGS

★ PERMI-FIRM STEERING

★ BROADRIM WHEELS

★ FULL-LENGTH TORQUE-TUBE DRIVE — protects moving parts, gives steadiness in traveling.

★ STEPON PARKING BRAKE

★ DEEFLEX SEAT CUSHIONS

★ CURL-AROUND BUMPERS

★ ACCURITE CYLINDER BORING — smoothness from the start and an engine that "stays young."

★ NINE SMART MODELS

★ BODY BY FISHER

Flashes of Life Sketched in Brief

Fast Trip

Syosset, N. Y., April 25 (AP)—A woman, apparently ending a large evening on Long Island, hailed the last train out of here last night at the last possible minute.

The conductor yanked the cord and brought the train to a stop down the track ways. He shout-

ed: "Hurry up, lady, where do you want to go?" She pulled up with the word: "Syosset."

Wearily, the conductor pulled the cord again, as he told her: "You're in Syosset, lady."

Mark of Distinction

Chicago, April 25 (AP)—Andrew Russell, Jr., 12, isn't boring his pals with the details of how he caught his trouser cuff in the sprocket of his bicycle, then bumped into an automobile.

More important to Andrew than his peril is what was said and

done by the automobile driver who took the boy to a hospital for treatment of a minor scratch on one hand. Not even the autograph hunters around Comiskey Baseball Park could beat that. Andrew believes, because the driver and companion on the trip to the hospital was Thornton Lee, White Sox pitcher. Lee was not held.

Late Application

Waukegan, Ill., April 25 (AP)—There was a long line of war veterans making applications for the Illinois state bonus but three of the ex-service men found they were late—by nearly 20 years.

The three applicants were veterans of World War I. The deadline for filing applications for the first war bonus was Sept. 9, 1927.

Mrs. Peelor Is Appointed

Albany, N. Y., April 25 (AP)—Mrs. J. Rodney Peelor of Poughkeepsie, was appointed today by Governor Dewey to the board of visitors of the Hudson River State Hospital, Poughkeepsie. She succeeds Mrs. Mary W. Conger of Poughkeepsie for a seven-year term.

Teach yourself
to TYPE

Touch-Typing Easy

The easiest way to do anything is the correct way. And that goes double for typing! Just think of all those precious minutes wasted in the hunt-and-peck method. Added up, they represent more than enough time to learn how to type correctly. By touch, of course!

You can easily learn the touch system at home. A simple keyboard chart shows you how to place your fingers so you can strike any key without looking. By keeping your eyes steadily on your work, instead of darting back and forth to your hands, you can type faster and more accurately.

Once you've mastered the keyboard through drills and exercises, you are ready to put your knowledge to practical use. Letters and other business forms are the next step.

Our Reader Service booklet No. 13 gives a home course in typing. Explains the operation of a typewriter. Has keyboard chart, helpful drills and exercises. Also explains how to type manuscripts, statistics, business and social letters, addressing envelopes.

Nyack Group Will Conduct Alliance Church Services

The Alliance Gospel Church, corner of Franklin and Pine streets, will have a group of young people from the Missionary Training Institute at Nyack during Sunday's regular and added services. A special afternoon service will be held at 3:30 o'clock for the benefit of friends who attend other services at the regular worship hour. Special music will be featured during the service.

The regular evening evangelistic service and hymn sing will be in charge of the Nyack group and again special musical numbers will be offered.

Members of the visiting group are Charles Olsen and Walton Croque, speakers; the Misses Scherrer, Nash and Milburn who will present vocal arrangements; and Miss Dolfe Corvett, violinist. The public is invited to attend the services.

Victim—What! Three dollars for pulling a tooth? You certainly earn your money very quickly.

Dentist—Oh, if you prefer, I can do it very slowly.

Farmer—Planted onions and potatoes in alternate rows. The onions will make the potatoes' eyes water and so irrigate the soil.

Man (having given up his seat in the street car)—I beg your pardon.

The Girl—I didn't speak!

The Man—Sorry, I'm sure. I thought you said "thank you."

KINGSTON, NEW YORK, APRIL 25, 1947

BRITISH GRATITUDE

A faculty member from each of the 45 American schools attended by children from Oxford who were cared for here during the war, is invited to summer school at Oxford University this year. A fund begun in 1940 that already has reached \$68,000 is to be used, with \$400 being placed at the disposal of each teacher on arrival in England.

The majority of the English boys and girls, now safely back in their own homes, came under the care of the Yale Faculty Committee which is donating a surplus of \$28,000 to the program. Other English parents of children cared for in the United States have developed similar plans to show their gratitude. One is Nottingham, called the Kinsmen Trust, has been set up to bring to England children of those Americans who were hosts to the war-evacuees.

Since British Treasury regulations do not permit money to be sent out of the country, the English parents hit on these schemes to bring Americans to them. There are many plans for sightseeing in the British Isles as well as study for the American guests.

Such exchange of individuals of two countries on a friendship basis, is a heartwarming evidence of international accord.

Speaking with regard to the recent adventures of Henry Wallace, a frank lady says, "the trouble with men is that they talk too much." And maybe they do, sister—maybe they do. But where did they learn it?

SELF-DETERMINATION

Woodrow Wilson may be responsible for some of the French troubles. He advanced the doctrine during World War I that peoples should have the right of self-determination, that is, should be able to choose whether they should be independent or ruled by others, and if the latter, should be permitted to select their rulers. This was primarily designed to shatter the Austro-Hungarian empire with its multitude of peoples, and had that effect. It also found unexpected echoes the world over. Ireland and India have pleaded self-determination in their efforts to escape British control. Now the French are hearing the same cry from their subjects in Indo-China and Madagascar.

North Africa is the latest trouble spot. The Arab League is stirring up unrest in Tunis and Algeria. Just the other day the Sultan of Morocco, another French possession, announced his sympathy with the Arab League.

North Africa may not yet be ripe for independence, but she will continue to be heard from, more and more pressing, until she gets it.

Some people think labor can do no wrong, and others think capital can do no wrong; and as a matter of fact, they're both wrong. How about Congress?

JUMPING BEANS, MAYBE?

Henry Wallace stirred up a much bigger rumpus than might have been expected. As a result, in the opinion of a great many people, the matter has amounted to just a little more than a hill of beans. Thus, as the Cleveland Plain Dealer observed, "the more he talked, the more he hurt himself." It was a good lesson on the merits of discreet silence.

We can't help wondering how a certain volunteer American statesman, now in England, manages to get along so quietly. Is it the climate, or what?

HANDSHAKING NOT NEEDED

Charles E. Hughes has just been celebrating his 85th birthday. As governor of New York, secretary of state, associate justice of the Supreme Court and later as chief justice, Mr. Hughes has adorned public office and deserved well of the American people.

Not the least of his services is his demonstration that an official does not need handshaking graces to hold his place in public life. He has been rather on the austere side, yet that has not affected public confidence in him. Although in 1916 he did miss the presi-

CHINA TRIES AGAIN

What so many younger discourses on China's woes seem not to know is that that ancient people have been bungling along their courses for a very long time. And it will take more than a book by a youthful American to undo the habits of a people which are grounded deep in the soil of their own traditions. And somehow also China manages to survive although her conquerors do not—which is not altogether discouraging.

So it is that now China has survived her Japanese conquerors. Whereas, 20 years ago, the state of China seemed to be as hopeless as it is today, Japan was a mighty nation, among the five greatest on earth. Yet while the Japanese are a conquered people, practically a fief of the United States, China still muddles along, somehow managing her own affairs, somehow holding together. No Japanese presided over the Security Council of the United Nations, but a Chinese did—and probably the most able of them all. If the pace of China is slow, it is not self-debating; if the Chinese are not as nationalistic as the Russians, they are also not as severe a problem to the rest of mankind.

China is now attempting to utilize a new Constitution. Back in 1924, the Kuomintang, under the leadership of Sun Yat-sen, founded a revolutionary government which in time placed Chiang Kai-shek at the head of the state. But Chiang was never quite a dictator; he headed a state, which, according to Dr. Sun's principles, was held in "tutelage" by a political party, the Kuomintang, until such a time as the people are ready for self-government. Dr. Sun, when he wrote his "Three People's Principles," had to recognize that the great mass of Chinese were not ready for self-government.

Under pressure from the United States and Soviet Russia, the Chinese have now declared themselves ready for some kind of democratic government. Although nothing particularly notable has happened between 1924 and 1947 to prove that the Chinese are more ready now than they were then for self-government, to meet foreign pressures the Chinese seem willing to try anything.

So a new government, headed by General Chang Chun, has come into existence under the general presidency of Chiang Kai-shek. China no longer under the tutelage of the Kuomintang; other parties are admitted into the government. It is a curious setup, but whether it can work or not is not terribly important, because Chiang Kai-shek will, in the final analysis, be the boss.

With General Chang Chun as his prime minister, a classmate of Chiang's in a military school in Japan and his friend and intimate associate during all these years, there is no possibility of a rift between them. In fact, Chang Chun has long been a general pinch-hitter for Chiang.

But there is more to this situation than that. The new administration includes some of the most competent bankers and business men of China. Chiang, Kiang-nai, formerly head of the Bank of China and for a prolonged period recently a resident in this country, is broadly in charge of economic policy, in which work he will be assisted by K. P. Chen and Li Ming, bankers of the highest repute and undoubtedly among the best known financiers in the United States. Under this group supports Chang Chun's cabinet will increase respect for its responsibility.

None of the Soong males remain in the government. T. V. Soong is out and his brothers play no part whatsoever in the affairs of China. And apparently his brother-in-law, H. H. Kung, is out of office. The objection to the Soongs was widespread. Chiang finally had to bow to the public will, which is always strong in China. It is not clear what the active and brusque T. V. Soong will do, but those in power are not his friends and they are not likely to welcome him in any capacity.

So China starts anew and very hopefully. This is an anti-Communist government, one that can bend like a willow if need be, but that also has many of the sturdy characteristics of the oak. China will not get under their hands.

That Body of Yours
By James W. Barton, M. D.

TWO KINDS OF CONSTIPATION

I was giving a talk to a service club and stated that constipation was present in nearly half the population, which accounted for the large sales of purgatives and laxatives. Later, a member of a large clinic with specialists in practically all branches of medicine and surgery told me that about 80 per cent of the patients gave a history of constipation.

There are two kinds of constipation one due to sluggishness of liver, gall bladder and lower bowel, the other due to nervousness and emotional disturbances causing an irritation of the lower bowel, which caused spasms and prevents wastes moving downwards and out of the body.

Naturally the treatment for constipation caused by a lazy bowel is different from that caused by an irritable bowel. The lazy bowel needs rough foods to stimulate it, the irritable bowel would become even more irritable by use of rough foods. One of the common causes of the lazy bowel is not taking time in the morning to eat a hearty breakfast, which by its very weight in the stomach sends impulses all the way down through small and then large intestine which drives wastes downward and outward.

If the individual with the lazy bowel would get up about fifteen minutes earlier, eat a hearty breakfast, go to toilet about fifteen minutes after breakfast, establish a regular bowel habit.

The stomach has had a rest for 12 to 14 hours. It is ready for food and if meal is medium to large stimulation of the whole food canal occurs. If the large intestine does not stimulate bowel movement sufficiently, rough foods should be eaten, such as cereals, whole grain bread, tomatoes, cabbage, lettuce with a little fat—butter, cream, bacon to help empty the gall bladder.

For the spastic bowel, causing constipation, rough foods should not be used as they cause alternate diarrhea and constipation. A spastic bowel resembles an old inner tube of an automobile tire with bulges and tight or narrow parts. The treatment for spastic bowel is trying to acquire calmness of mind, bending exercises with knees kept straight and soft but nourishing foods such as steaks, eggs, lamb, cooked and strained fruit juices, liquids including buttermilk.

It has been estimated that there are more persons with constipation than there are without it. For information on this subject send today for Dr. Barton's helpful booklet entitled "Constipation." To obtain it just send ten cents and a three cent stamp to cover cost of handling and mailing. To The Bell Syndicate, Inc., in care of The Kingston Daily Freeman, P. O. Lifelines
C. R. DOUGLAS

This column recently compared the growth of Poughkeepsie with that of Kingston which 42 years ago was a larger city. The Bridge City last week paid tribute to the men, whose faces, if not backgrounds, are known to virtually everyone in the nation, and who are an industrial team were a major factor in the growth of our neighboring community—the Smith Brothers, William W., the original "Trade" and Andrew, the original "Mark" of the cough drop box combination.

A community celebration, marking 100 years of service of Smith Brothers, Inc., was one of the largest of its kind in recent years in Poughkeepsie and paid special tribute to William Smith, the first generation of the famous cough drop family and the line of Smiths which have carried on with a product that is known throughout the world.

The Bridge City went heavily hirsute with special beard-growing contests and retrospective demonstrations in observance of the anniversary climaxed by a banquet which drew a crowd of 1,000 at the state armory.

Few if any trade-marks through the years are better known than that of the pilose likeness of the two brothers reproduced on the millions of boxes of cough drops sold since the familiar illustration first appeared. It has proved the value of the trade-mark in advertising, time and again, and provides one of the best opportunities in the nation for a study through many generations of the value of that particular kind of advertising.

In presenting highlights of the beginning and growth of the industry, the Poughkeepsie New Yorker reported that the Smith family arrived in Poughkeepsie in 1847 and established a family business. It is believed to be the first manufacturing of "cough candy," which later became the famous Smith Brothers cough drops, and was started shortly after the arrival of the family.

James Smith & Son held its first exhibition at a Dutchess County Fair on Oct. 6, 1849 and on May 29, 1852, William Smith, grandfather of "Trade" or William W. Smith, opened the "Washington Garden Ice Cream Saloon," at 25 Market street, under the name of William Smith & Company.

The first "cough candy" advertisement appeared in the city of Dec. 10, 1852. It was signed by William Smith. The Smiths came to Poughkeepsie from Canada and in September, 1854, James and his wife Ann and their son William W. (Trade) Smith, were admitted to U. S. citizenship.

The restaurant at 13-15 Market street, which is still in operation was bought by James Smith in April 1859.

William Smith, first generation of the family to be in business in the city, died in 1861, and on August 15, 1864, James Smith & Son dissolved partnership and formed a new partnership under the name of James Smith & Sons. It included James Smith, second generation in Poughkeepsie, and his sons, James Smith, Jr., and Andrew (Mark) Smith, the third generation of the family in the city.

Several other changes were made in the firm name and in April, 1872, James, Jr., and Andrew dissolved an old partnership, and formed a new firm under the name with William W. (Trade) and Andrew (Mark) as the new partners as James, Jr., withdrew. Arthur G. Smith, fourth generation, entered the business in 1887. Andrew died in 1894 and William W. carried on alone until 1910 when William W. Smith 2nd, the fifth generation, entered the business. Robert L. (Bud) Smith, son of Arthur G., and another member of the fifth generation entered the business in 1912, and in 1913 William W. (Trade) Smith died bequeathing the business to his only son, Arthur G. who carried it on as "Smith Brothers."

A new factory was built in 1915 and in 1919 the business was incorporated by Arthur G., William W. 2nd and Robert L., sons of Arthur G., as Smith Brothers Inc., covering both the cough drop and the restaurant business. Plant No. 2 was completed at Michigan City, Ind., in 1920 and the menthol line was added in 1922.

Arthur G. Smith, fourth generation, died in 1936 bequeathing the business to William W. Smith 2nd and Robert L. Smith, fifth generation. The company was reorganized in 1937 under the Delaware charter as Smith Brothers Inc., with a change in the stock arrangement.

Taft's Defense of Labor Measure Considered 'Lame'; Better Than Wagner Act for Unions
By DAVID LAWRENCE

Washington, April 25—Senator Taft has made a rather lame defense of his labor bill. The measure is in some respects even better for the labor unions than the existing Wagner Labor Relations Act. True enough, the bill introduces some new mediation machinery and puts upon labor some obligations never before written into a statute. But, on the so-called "free speech" issue, the bill is supported by the Senate committee merely confirms all the erratic decisions of the National Labor Relations Board over the last ten years.

Here, for instance, is the language of the Senate bill: "The National Labor Relations Board shall not base any finding of unfair labor practice upon any statement of views or arguments, either written or oral, if such statement contains under all the circumstances no threat, express or implied, of reprisal or force, or offer, express or implied, of benefit."

This language narrows considerably the rights of the employer hitherto stated by the Supreme Court of the United States and by the federal courts in reversing Labor Board decisions. It cuts the ground from the court decisions and restores to the Labor Board the full power it thought it had before the courts began reversing the board.

For there never has been a single case over the last ten years of decisions by the National Labor Relations Board involving the so-called "free speech" issue in which the board has ever claimed that it based a finding solely on statements or arguments that were devoid of threat or implied benefits. Again and again, the examiners for the board have found and the board has upheld findings that an employer had addressed his employees, either orally or in writing, but that his words were of an intimidating character or were threatening or were tied up with acts that were clearly indicative of an anti-union attitude.

The new Senate bill, if enacted, indicates that the Labor Board will have no trouble with the courts hereafter. Either the board will find that an employer threatened employees with loss of benefits if they refused to choose the union as their bargaining agent, or if they refused from choosing a union as their bargaining agent. This effort by the Senate bill to narrow an employer's rights contradicts the expressions of the courts, where it has been plainly said that an employer may discuss unionism and even oppose

BABSON on BUSINESS

BABSON LOOKS AHEAD FIVE YEARS

Eureka, Kansas, April 25—I hope I am wrong; but the following is a brief summary of my vision for the next five or more years whatever Russia may do. This, moreover, is based upon forty years of forecasting experience and the expenditure of millions of dollars on business research.

(1) I am reasonably sure of at least two more years of fair business. If the U.S. adopts the right international policy, this can be extended to five years or more. Certainly, the agricultural sections out here are happy to see no reason for any business depression.

(2) My manufacturing friends are very much upset by labor's demands and believe that "sooner or later" we will witness a Great Depression with millions of unemployed. Commodity, real estate and stock prices will be very much lower than at present.

(3) When visiting Washington, I find a belief that unless Russia collapses in the meantime there will then be a Communist uprising in the U.S. If our Federal Government is not then taken over by the Communists, through democratic procedure, certain state and city governments certainly will be. Yes, Washington is very jittery, and President Truman is scared blue.

(4) If these Congressmen are right, a panic of tremendous proportions could take place with people leaving the big cities and seeking refuge in the self-sufficient sections of the Central West. I fear to guess with their own food, fuel and housing supplies and which are not dependent on railroad transportation.

(5) If that time comes, or when the danger is fully evident, it will be too late to prepare for it. You cannot take out fire insurance on your house when it is burning! Yet, today there are several ways to prepare yourself and family both against communistic uprisings from within and Russian bombs from without.

Both of these factors would dangerously affect industry in and around many large cities. The first "hedge" would be to migrate with your families to some small interior city in the Central area of the United States. If you don't care to take so definite a step now you can at least now make a start by re-arranging your investments. In the light of this situation there are three classifications of investments to be considered. These are: Safest Investments, Bomb Targets and Semi-Protected Investments.

Safest Investments should include those companies whose assets or sources of materials are decentralized, or underground or Clinton Avenue Methodist Church, was greeted by a large turnout of the congregation at a special service.

The M. Davenport team of the Ulster County Club finished 42 holes ahead of the J. C. Davenport team in a final April match for the title of the Ulster County Club.

indestructible. Among these are certain Lumber, Chemical and Mining companies, most of whose assets are well scattered, well buried or obtained from the sea. Also, companies processing or packing food products whose assets are in or near Agricultural Areas. Some Lumber and Sea Food companies should be included in this group.

Lumber Targets should include such heavy industries as Steel, Locomotives, Automobiles and Machinery. Other companies whose principal income is derived from food distribution in large cities would be vulnerable. Utilities, including transportation, gas and electricity, Electrical Equipment Manufacturers, Large Department Stores, Drug Companies and Restaurant Chains would all be open to attack.

Semi-Protected Investments are those based upon somewhat scattered assets with at least the greater portion in "safe" areas. I have in mind such industries as the Container Companies, certain Meat Packing Companies, Oil Companies, Chain Store Systems, Communication Companies and finally Publishing Companies whose good will and reputation are in the same category (radio, newspapers and cannot be "bombed" out).

Conclusion

When I am in New York city with my banking friends, I am inclined to be bullish. When in manufacturing centers with those plagued by severe labor troubles, I become bearish. When, however, I am out here at the very center of the U. S., viewing our great vicariousness of grain, forests, minerals and happy people, I am neither bullish nor bearish. I, however, do advise my readers now to get and keep out of debt. Hope for the best, but prepare for the worst.

A WEDDING PLAN TO BE AVOIDED

I had intended to write on this subject anyway and the morning's mail merely added the following reminder: "My son is being married and I have been told that following the large church ceremony, there will be a private dinner for the families and a large reception following that. Would it be entirely courteous to let the uninvited guests wait in idleness during the time the families are eating their dinner and before they are ready to receive the guests at the reception? In other words, is this a usual custom or does it simply seem strange to me?"

A year ago this would have been unheard of question. In the last few months, however, I have had a number of letters describing very much this same idea. But I am not sure how this is managed and I cannot imagine what the guests are supposed to do. Those who have come from a distance certainly would find themselves in an awkward predicament. It seems to me even those living near-by and having to go home to dinner (or supper) would be inclined to stay there. Properly, the wedding should be at an in-between meal hour or the reception immediately following should supply a reasonably satisfying amount of food for everyone.

Chronic Telephonitis
Dear Mrs. Post: I have a friend who is very popular on the telephone. I have yet to pay her a visit that she isn't called to the telephone several times. What I do object to, however, is that she talks and talks and never explains that she has a visitor. Shouldn't this be done under such circumstances?

Wedding Announcements
Dear Mrs. Post: Should wedding announcements be sent only to people who might not otherwise hear of the marriage or are they supposed to be sent to everyone near and far regardless?

Veto Is "Assured"
Washington, April 25 (AP)—Senator Ball (R-Minn.), predicted today that the Senate will write more restrictions on unions into its general labor bill—and Senator Aiken (R-Vt.) said that would "assure" a presidential veto. Ball and Aiken, both members of the Senate Labor Committee, expressed their views in separate interviews as the Senate got set to resume debate (noon E.S.T.), on legislation to curb strikes and limit union activities.

Rondout Valley Sunday School Association Resumes Fellowship Convention, First in 5 Years

Rondout Valley Sunday School Association will hold a spring fellowship convention at Rosendale Reformed Church Friday evening, May 2. This is the first time the Sunday Schools of the Rondout Valley have assembled since 1942 when the war, shortages and restrictions banned such meetings. The highlight of the convention will be an address by County Judge John M. Cashin speaking on young people and their problems as they come before the judge for direction and settlement. There will be but one session for the convention starting at 8 p. m. The choir of the church will lead in the singing and furnish musical numbers. Election of officers will be held. Refreshments will be served by the Rosendale Reformed Church.

Notices have been sent to every school in the valley to send a delegation so a large gathering is expected. All Sunday Schools in this locality are invited to send representatives if they so desire. Each group of delegates is asked to register upon entering the church.

Local Pastor Will Assist in Burning Church Mortgage

Dr. O. Louis Schreiber, pastor of St. Paul's Evangelical Lutheran Church, left this morning for Jersey City, N. J., where he will take part in this evening's ceremony of burning the church mortgage at the Calvary Evangelical Lutheran Church on Hudson Boulevard.

Dr. Schreiber was the first pastor of this church and it was under his pastorate that the mortgage was incurred. Dr. F. Knobel, president of the Synod of New York, will be the guest preacher.

U.A.W. Settles With G.M.

Detroit, April 25 (AP)—The C.I.O. United Auto Workers settled with General Motors Corp. last night for an 11½ cent basic hourly wage increase, but U.A.W. President Walter P. Reuther said the union had gained "a total economic package well over 15 cents." The new agreement—being prepared for corporation and union signatures today—was expected to set a pattern for the auto industry's wage drive this year. Under its

terms 220,000 General Motors production workers will get, in addition to the hourly boost, pay for six holidays which the corporation said is equal to an additional 3½ cents an hour, and new vacation benefits.

Will Demand Action

Washington, April 25 (AP)—Senator Ferguson (R-Mich.), said today he will demand that Congress override President Truman's veto of a resolution to let Burton K. Wheeler act as special counsel for the Senate War Investigating Committee. The President himself, standing by the veto despite his long friendship with Wheeler, suggested that if Congress will simply re-pass the measure in somewhat different language he will sign it.

The summer session at New Paltz State Teacher's College will open June 30 and will offer a special workshop in early childhood education in addition to the usual six and eight-week sessions of college courses. The workshop and the six-week session will run until August 8 and the eight-week session until August 22. The workshop will give teachers of children three to eight years old an opportunity to study problems which have grown out of their own daily work with youngsters. An experienced staff headed by James

L. Hymes, Jr., coordinator of early childhood education at New Paltz, will conduct group meetings and individual conferences. The six-week session offers college credits to those who wish to complete a four-year degree. The longer session is intended for students on the three-year program.

Benjamin H. Matteson has announced the "A" teachers for the last quarter junior teachers in the Campus School. Those students receiving "A's" are Anne Ricciardi, Marilyn Miller, Veronica Melonson, Fannie DeCicco, Marie Ambrose, Rosemary Louv, Irene Brenish, Agnes Adams, Barbara Turlier, Joseph Moser, Jean Schreier, Marie Babski and Alice Lang.

About 6,500 alumni of the New Paltz State Teacher's College will hold their first post-war reunion at the college May 10. The meeting, first since May, 1942, will renew regular alumni gatherings at the school. The program will include a luncheon at 12:30 o'clock which will be followed by the installation of a plaque dedicating the practice school to Dr. Lawrence H. van den Berg, former president of the institution. A business meeting will be held at 2:30 o'clock to elect officers and an afternoon concert by the college students will follow. Dr. W. J. Haggerty, president of the college, requests all graduates to attend the reunion.

Epsilon Delta Chi will sponsor the assembly program on April 29 which will feature a play entitled "We Hold These Truths," the theme of which is the modern application of the Declaration of Independence. The play will be presented by the pupils from Miss Gertrude Stroble's eighth grade and Leslie Oakley's seventh grade. The announcer for the program will be Harold Schoonmaker. The play was starred as a social studies group project.

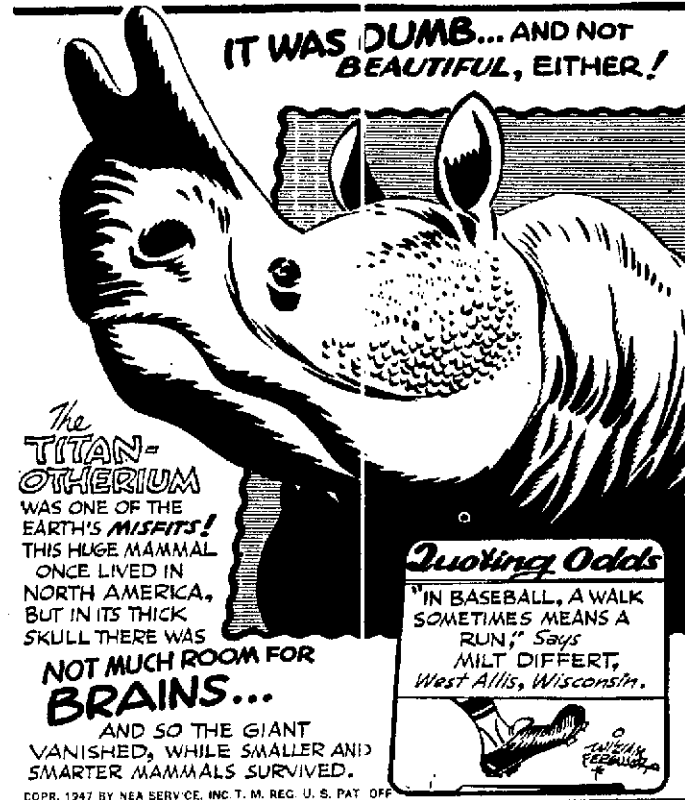

Three members of Kappa Delta Pi and two faculty members will attend the regional conference at Cortland State Teacher's College during the week-end of April 25. The members elected to represent

the Beta Zeta chapter here at New Paltz State are Jane Simms, Joe Castellano and Calvin Sloan. The faculty members are Miss Ruth Mack Havens, faculty adviser and Miss Jeannette Van Arendonk. Kappa Delta Pi will hold its first banquet of the organization May 10 at the Old Fort Jane Simms. Jean Holliday and Dorothy Anne Feuerriegel compose the committee in charge.

The first breakfast hike sponsored by the Outing Club was enjoyed by 60 students. Mildred Klevesahl, Lois Whitaker, Dave

Anderson and Frank Austin were on the committee in charge. The group arrived at Stairs Woods at 5:30 where they built a fire and had coffee ready for the others who arrived a little later. They brought with them eggs and bacon to fry, and bread for toast, oranges and other breakfast items. All were back for their 8 o'clock classes at the college.

Willa Cather, 70, Is Victim of Stroke

Pulitzer Prize Winner in '23 Dies in New York

WILLA CATHER

New York, April 25 (AP)—Willa Cather, Pulitzer prize-winning novelist, died of a cerebral hemorrhage late yesterday at the age of 70.

Her works included "My Antonia" (1918), "Death Comes for the Archbishop" (1927) and her last, "Sapphira and the Slave Girl" (1940).

The Pulitzer award was given for "One of Ours" in 1923.

Although born in Virginia, Willa Sibert Cather was reared in Nebraska, and many of her novels had midwestern settings.

Miss Cather was for six years managing editor of "McLure's Magazine" before beginning her career as a novelist. Her first novel was "Alexander's Bridge," published in 1912. Earlier, however, she had published verse and short stories.

She had lived in New York many years.

Surviving are two sisters, Miss Elsie Cather of Lincoln, Neb., and Mrs. Jessica C. Auld of Palo Alto, Calif., and James D. Cather of Long Beach, Calif.

Says Reds Seek Uranium

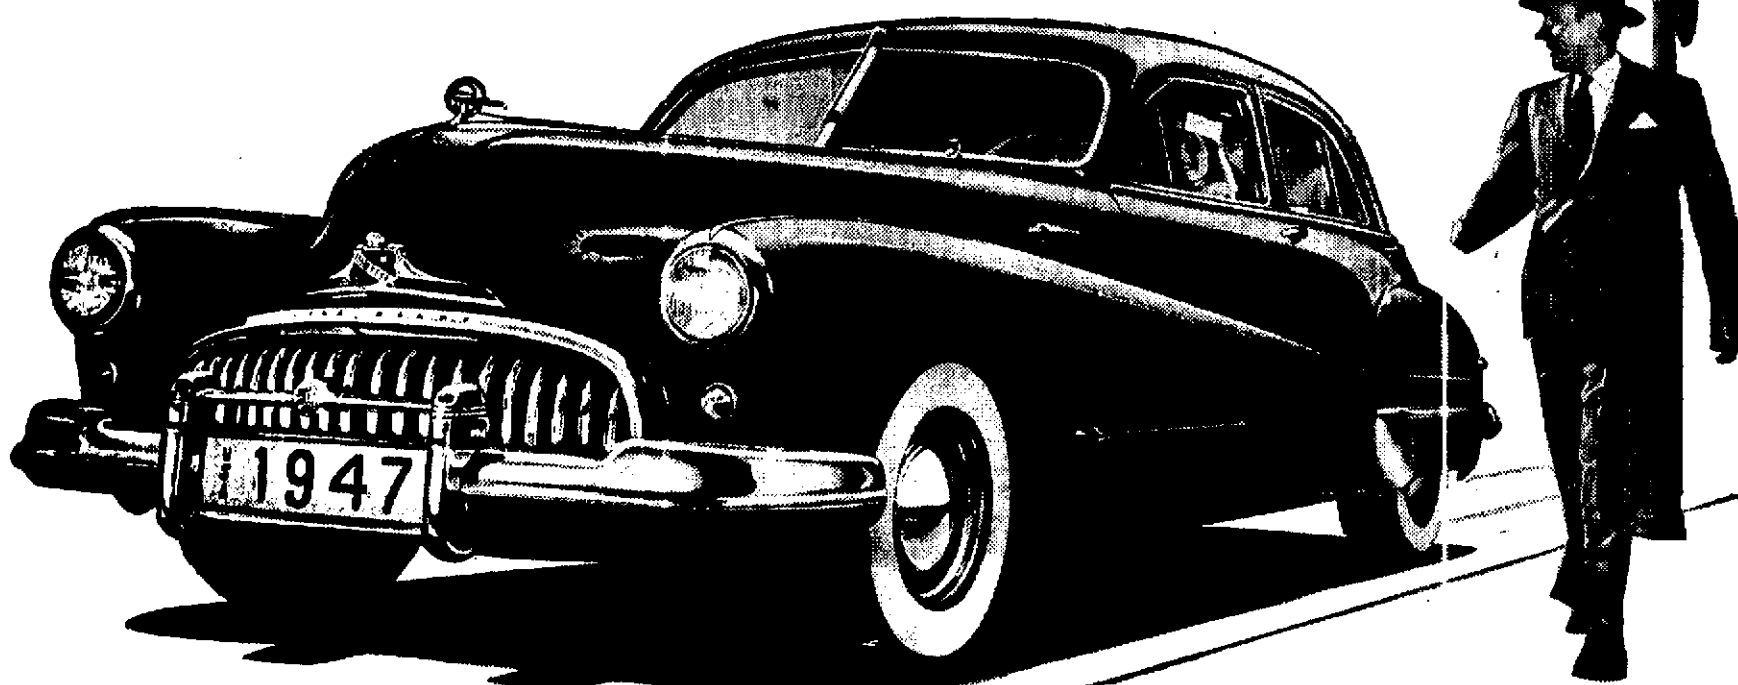

Munich, April 25 (AP)—A German businessman who spent several weeks in the Russian zone asserted that Soviet engineers were turning a mountainous area of Saxony into a great mining region in a "frantic" search for uranium—key to the atom bomb. (American experts, speaking unofficially in Frankfurt, said the German's statement was "possibly true," but warned that his story might be a "plant.")

Gun Permit Surrendered

Hollywood, April 25 (AP)—Actor Frank Sinatra has surrendered his gun-carrying permit, the sheriff's office disclosed last night. Revocation of the permit came after Sinatra's fistfights in a Hollywood night club with Lee Mortimer, New York columnist. The crooner is awaiting trial May 28 on a battery charge brought by Mortimer. The gun permit, incidentally, listed Sinatra's occupation not as a crooner but as "film star."

Like a look at your Future — RIGHT NOW?

JUST pause a moment on any corner of the smartest street in town.

Wait till you see this gleaming grille bearing down on you — these long fender lines sweeping past — this trim rear bumper flashing its farewell.

That's not just the new '47 Buick you're seeing, but the tip-off on tomorrow as far as car styling is concerned.

Here's the long, low, sweeping look designers even now are striving to equal.

Here's the broad beam that tells of plenty-room, the proud bearing that spells power and ability and steady road-wise going.

We're not saying you'll match this flashing action elsewhere — Buick's frugal Fireball combustion principle

and Accurite cylinder finish give us pretty much of a corner on that.

And not everywhere will you find the fluid stride, the ever-easy comfort of soft, BuicOil springing on all four wheels. Only Buick, after all, can be all a Buick is.

But here's the way the smartest cars will dress themselves — for a long

while to come. Here's a high-styled high stepper that will keep you among the first-in-fashion for years and years.

That being so—why hesitate? There's no smarter step you can take to make your dollar count and cut your waiting to the minimum — than to get your order in now.

ONLY BUICK HAS ALL THESE STAR FEATURES

★ AIRFOIL FENDERS

★ FIREBALL POWER — from valve-in-head straight-eight engines in two sizes.

★ BUICOIL SPRINGING — Buick-developed all-coil springing for perpetual smoothness and "panthergait" ride.

★ FLITELIGHT PISTONS

★ SILENT ZONE BODY MOUNTINGS

★ PERMI-FIRM STEERING

★ BROADRIM WHEELS

★ FULL-LENGTH TORQUE-TUBE DRIVE — protects moving parts, gives steadiness in traveling.

★ TRAVELING PARKING BRAKE

★ DEEFLEX SEAT CUSHIONS

★ CURL-AROUND BUMPERS

★ ACCURITE CYLINDER BORING — smoothness from the start and on engine that "stays young."

★ NINE SMART MODELS

Y.M.C.A. Financial Drive Opens With Great Enthusiasm

The Kingston Dodgers, in training here for the coming season, gave a realistic touch to the sports element in Y.M.C.A. work by their presence at the colorful banquet Thursday evening, which opened officially the organization's financial drive for 1947.

During the evening each player responded as his name and ball diamond position was announced by the team's captain, "Sugar" Scherger. When the players left, just before the drive business session got underway, they were given a generous hand of applause and best wishes for a successful summer in America's most popular outdoor game.

President of the Board of Directors, Clarence Rowland, key-noted the drive and this year's Y.M.C.A. program in which he pointed out many of the vital recreational elements in the work of the organization. His speech was followed by an inspiring address by Judge John M. Cashin, guest speaker of the evening.

Goal of the drive this year is for \$20,000. Already several gift donations have been received. During the business session that followed the banquet each ward team checked the part that it would play in the work of soliciting for the drive. Great optimism was felt by both the experienced and new workers in this important phase of "Y" responsibilities. The general feeling is that the 1947 campaign for local support of the organization will be more than successful, as has been true of other financial drives in the past.

Those seated at the head table were: The Rev. Frank Gollnick, Dr. Cain, John M. Cashin, Clarence S. Rowland, Sr., Dwight McEntee, Sr., Thomas Bohan, "Sugar" Scherger, Paul Taylor, Mr. and Mrs. Herbert Fisher, Miss Esther Roberts, Elmer E. Bickel, Edward Edlert, Paul Barnum, Paul Zucca, Burton S. Tandy, Louis H. Schaffer, and Clarence W. Correll.

The workers present were: A. Henry Smith, Edward Thomas, Ralph Devo, Charlotte Devo, Carolyn Morgan, William Mould Frank Clark, Harold Baltz, Elder D. Lee Moses, Bill Burnett, Edward Bruck, Walter Dougherty Edward Edwards, W. Mahoney, Robert Hunt, Harry Giles, Walter Comerford, Kenneth Heppner, Irving Scott, Chet Duffley, Vincent Radcliffe, Richard Matthews, Wilfred Stutten, Bill Lister, Marian Radcliff, Joseph Blass, Donald Bernard, Richard Newman, John Dawkins, Carl J. Esposito, Nancy Muccio, Edward Gillo, Floyd Gilbert, Barney Emberson, Clarence Rowland, Jr., Elder Lynn B. Evans, John Schroeder, Charles A. Edwards, Robert Morris, Mr. and Mrs. Ralph Devo, Kenneth Boughton, Al Groschen, W. J. Hogan, Marge Voigt, Allan Vogt.

The directors attending were: Ernest LeFevre, Clyde Wonderly, Jr., Clyde Wonderly, Sr., Chester Baltz, Sr., James Guttridge, Herman Schwenk, Emil Boeckstein, C. C. Rose, A. T. Young.

Smallpox Clinics

To Be Held in County

Next Tuesday smallpox vaccination clinics will be held in the town of Hardenbergh at both Dry Brook and Turnwood at 11 a. m. and when these clinics are held it will have completed at least one clinic in every town of the county.

In many of the towns several clinics have been held. Today from 4 to 6:30 a clinic is scheduled at the health center on East O'Reilly street, Kingston and at Olive Bridge a clinic will be held from 4 to 6 p. m. today.

Saturday a clinic will be held at Marlborough Central School from 10 to 12 noon.

The County Health Department will continue to sponsor clinics in Kingston until the emergency is over.

Fund Report Meeting To Be Held Tonight

Final report meeting for the Ulster County Girl Scout campaign fund will be held tonight at 8 o'clock in the Y.M.C.A. All workers, chairmen of wards, and any who have assisted in the drive are asked to be present.

The Rev. Father Kelly of Rosendale will be the guest speaker. Anyone interested in scouting is invited to attend.

Report on Lunch

Continued from Page One
Lunches have been served free to needy students.

State Aid Falls Short

Last year when the Board of Education made up its annual budget and estimate of the amount of state aid was included as usual, to be deducted from the amount necessary to be raised by local taxation. At that time it was estimated the State Aid would be \$401,016.50, based on attendance the previous year. At the meeting of the Board Thursday evening a report of State Aid was submitted showing the actual state money had amounted to \$397,717.75. The estimated amount to be deducted for payments for Teachers' Retirement Fund was \$35,857 and the actual amount deducted was \$31,310.88. The actual amount of State Aid money received by the State Aid Board from the state was therefore \$52,633.63, a less than had been estimated in the budget a year ago. Public money is based on actual attendance of students at school.

The report shows that the public money was received in three payments, one of \$179,246.87 on April 16, 1947, one on January 15, 1947 amounting to \$65,560 and one on September 16, last of \$101,400. Retirement deductions are retained by the state on each payment.

On April 22, 1947, the first quarterly payment of moneys toward the teachers' living bonus under the Teachers' Salary Emergency Increase Fund, as authorized by the state Legislature last January, was received. This first quarterly payment amounted to \$15,025 and represents the \$20 per month bonus which was authorized by law and is paid by the state to all districts for each teacher. The money has been paid to teachers in their regular pay checks.

The Board audited the April pay-roll amounting to \$64,547.10 and also bills amounting to \$23,670.70.

Permission for Science Show

Permission was granted Colonial City Chevrolet to sponsor for General Motors dealers an educational show at the high school auditorium on June 20 when the film "Reviews of Progress and Science" will be shown under auspices of General Motors. The film will be free to the public.

An invitation from the Kingston Veterans' Association for the high school band to participate in the annual Memorial Day parade was received and accepted.

The program is under the direction of the New York School Board Association's Conference at Arlington on April 29 when the New Rochelle board president will be in charge of the meeting.

Permission was granted the 4-H Club to use several rooms in the high school on May 10 for the Girls' Demonstration Practices work. This is an annual service.

"Wings over Jordan" Musicale
Permission was granted for use of the auditorium for the "Wings Over Jordan" musicale on Monday.

A communication from the Veteran Tree Expert Service was referred to the Building Committee. The firm seeks tree work.

Kiwanis School Trees

A communication was received from the Kingston Kiwanis Club notifying the Board that the club was sponsoring five \$200 scholarships for boys of the high school. The Board accepted the proposal with thanks and members of the graduation class will be acquainted with the conditions by Mr. Dumont.

Attention was also called to the Jane Stanbrough Fund under which worthy students may secure a scholarship loan. This matter will also be explained to students by Principal Dumont.

A communication was received from the County Health Department reporting on an inspection of the school cafeterias. It was suggested that additional refrigeration be provided for storage of milk. Other cafeteria conditions were found to be excellent. The matter of additional refrigeration was referred to the Building committee.

Selling Course

Notice of a school for employees from Kingston stores to be held on May 5 and 6 and May 12 and 13 for the purpose of instruction in retail selling was given. This program is under the Distributive Education Program and is for adult education. At the school which will be conducted under the guidance of Utica Technical Institute, will be an instructor in retail selling. It is expected Mr. Burdick of the Utica School will be present. The cost of the instructor will be \$10 and that cost will be born

through money from the Federal and State funds for Distributive Education work. The program is being sponsored by retail merchants of the city.

Get Cash Register

Trustee Leehive for the Building committee reported on work done at various schools. The fire escape at the high school is up and outlets have been installed for the cafeteria cash registers in the high school and the M.J.M. school. Other work at the high school gym and cafeteria has been completed and the projection room at the M.J.M. is about completed. Shades have been installed in the M.J.M. cafeteria. At No. 2 the gym floor has been refinished. The fire escape at No. 5 is now being erected. At No. 6 an eight-foot additional fence has been erected on top of the present fence on Bruyn avenue to prevent school athletics from encroaching on adjacent property. Copper water lines have been installed in the fence on Bruyn avenue. At No. 8 the basketball poles have been replaced.

Superintendent A. J. Laidlaw made his monthly report and the board adjourned.

32 Japanese Had Plenty Of Food on Peleliu

Peleliu, April 25 (AP)—Thirty-two Japanese who surrendered a few days ago from this jungle island didn't suffer too much from their long isolation. They had plenty of food stolen from the Americans.

U. S. Marines who visited their 32 hideouts found them well stocked with medical supplies as well as rations, all taken from American dumps.

One of the hideouts was a five-story cave on Bloody Nose Ridge complete with a free water stream. The other was in a swamp only 400 yards from Peleliu's main road. It was so cleverly hidden it could not be spotted 20 yards away.

The Japanese, who surrendered two and one-half years after the island was captured by Marines, were treated as disarmed military personnel instead of prisoners of war.

Britain Draws Again
Washington, April 25 (AP)—Britain has drawn on the U. S. Treasury for another \$250,000,000 of her \$3,750,000,000 loan-credit. Disclosed by treasury reports today of its position, the withdrawal brought to \$1,550,000,000 the total withdrawn since the loan agreement was signed last July.

TOMORROW'S MENU
BREAKFAST: Orange juice, fried oatmeal mush, butter or fortified margarine, syrup, buttered toast, coffee, milk.
LUNCHEON: Salmon salad, hot buttered toast, sliced bananas, cup cakes, tea, milk.
DINNER: Fried calves liver and bacon, creamed potatoes,

One and one-half pound can of salmon, 2½ cups shredded lettuce, ¼ cup diced celery, ½ cup minced green peppers, 3 tablespoons salad oil, 2 tablespoons lemon juice, ½ teaspoon salt, ¼ teaspoon pepper, 3 medium tomatoes, ½ cup mayonnaise.
Drain the oil and liquid from salmon. Combine the lettuce, celery and green pepper. Add the spices, salad oil and lemon juice. Mix lightly with a fork. Place this mixture in a salad bowl. Break the salmon into large flakes and spread over the top. Garnish with the mayonnaise and tomatoes cut in wedges. Serve immediately.

Salmon Salad
(Serves 6)
Two pounds salmon steaks, 1 teaspoon salt, ¼ teaspoon pepper, 4 tablespoons butter or other fat, melted.
Sprinkle both sides of each steak with salt and pepper and let stand 10 minutes to absorb the salt. Lay steaks on a preheated greased broiler pan and broil with melted fat. Place pan in preheated broiler about 2 inches from the heat, cook for 5 to 8 minutes or until slightly brown, baste with melted fat, and repeat process on other side. Turn carefully. Remove carefully to hot platter, garnish, and serve at once. Serve with whipped potatoes, buttered broccoli and a tossed vegetable salad.

Breaded Salmon Steaks Baked
(Serves 6)
Two pounds salmon steaks, 1 tablespoon salt, 1 cup milk, 2 cups fine toasted bread crumbs, 4 tablespoons melted shortening.
Add the salt to the milk and stir until dissolved. Dip the fish into the salted milk and roll in crumbs. (Use the left hand for dipping and the right hand for rolling in crumbs.) Arrange on a shallow oiled baking sheet and sprinkle each piece sparingly with melted shortening. Bake in a 375 deg. F. oven for 20 minutes. Serve with tartar sauce.

Chandler Summons MacPhail to Meet Him in Cincinnati

New York, April 25 (AP)—Commissioner A. B. Chandler, displeased about Larry MacPhail's apparent disregard for his "silence" decree on the Leo Durocher case, will summon the New York Yankee president to appear before him in Cincinnati next week, it was learned today.

Chandler, in town ostensibly to participate in the Babe Ruth Day ceremonies at the Yankee Stadium Sunday, has spent two days checking into the background of MacPhail's recent activities, according to a baseball "insider." The commissioner, however, denied he had talked with MacPhail.

"I have had no talks with any baseball men except the men in my own organization," Chandler said. "We have been very busy since my arrival. I know about the Newark interview with MacPhail and I know all about the Durocher case."

"If there is to be any action taken in this case or any other case it will come in Cincinnati," Chandler stated flatly. "I expect to return to my office Monday afternoon."

Although Chandler ordered all parties concerned in the Durocher case to maintain a silence on the subject, MacPhail was quoted by Harry Nash in the Newark Evening News of April 18 as saying "Commissioner Chandler has sufficient ground on which to hang a five-minute suspension" on Durocher, the Brooklyn Dodger manager who was suspended for the entire 1947 season.

Nash said that MacPhail "intimated that if there were legitimate reasons for keeping Durocher out of baseball for a year they are being kept from the public."

Chuck Dressen, Yankee coach who was suspended for 30 days by Chandler, participated in daily pre-game practice with the club until he received a wire from Chandler Tuesday ordering him not to appear on the field in uniform during his suspension.

MacPhail refused to comment on reports he would be summoned to Cincinnati other than to say, "very interesting, if true."

Applies for License
Miami, Fla., April 25 (AP)—Arline Judge, film actress four times married and divorced, and Henry J. (Bob) Topping of New York city made application for a marriage license here late yesterday.

Miss Judge said she and Topping would be married at the home of a friend at Miami Beach by a justice of the peace either next Tuesday or Wednesday.

Reade Visits Kingston

Walter Reade, Jr., president of the Reade chain of theatres, was a visitor here Thursday for his annual inspection of the two local theatres. This was Mr. Reade's first visit here since his discharge from the U. S. Signal Corps, where he served as captain in the South Pacific, accompanying the theatre owner was Edwin Gage, general manager of Reade's Theatres. Arriving by

plane, Mr. Reade was greatly impressed with the facilities offered at the Kingston-Ulster airport. Mr. Reade pilots a Cessna 120, two-passenger plane on his business trips to most of his 85 theatres throughout the country. Left to right are Mr. Gage, Robert W. Case, city manager, and Mr. Reade.

Financial and Commercial

New York, April 25 (AP)—A few stock market leaders continued to operate in the plus column today but numerous issues sought lower levels.

The General Motors and Bethlehem wage boost agreements were viewed as constructive, insofar as precluding strikes, although failing to touch off any real buying. The question of mounting costs and maintenance of high prices in these fields served to chill enthusiasm. Confused thinking over the business outlook, taxes, labor legislation and foreign affairs inspired a certain amount of liquidation.

New York Man Has To Round Up Cargo

Albert Stone, 161 West 12th street, New York, looked behind at one point in his journey through town last night and discovered that he was missing a major portion of a cargo he was delivering to a summer place in the mountains.

Stone turned to retrace his course and meanwhile Mrs. John D. Schoonmaker of 281 Albany avenue, reported to the police at 6:35 p. m., that someone had lost a trailer in front of her house.

Officers James Burns and Earl Schoonmaker were sent to investigate and shortly after they arrived in a patrol car, Stone appeared to retrieve the trailer which he said contained pumping equipment for use at a mountain boarding house.

DEHYDRATED FRUITS FORM BASIS OF NEW LAXATIVE!

A new product, now available at Kingston Drug Stores, provides a positive laxative action that is entirely free from strain or violence. Called Bovac, it is made from concentrated, dehydrated prunes, apples, figs, and vegetable substances—pleasantly flavored. This gentle laxative works on the natural principle of providing sufficient disposable soft bulk to permit proper functioning of the digestive system.

Contains No Harsh Chemicals. In contrast to the ordinary cathartic, which shocks the system into a forcible ejection of waste matter, Bovac merely assists the organs in their normal action. For this reason, Bovac is absolutely safe for children or invalids, because you cannot take an overdose of Bovac. However, the usual dosage of one or two teaspoonfuls in a glass of water is sufficient to produce results in even the most stubborn cases.

Recommended by Doctors. On file at the manufacturers, Bovac, Inc., 1045 First Avenue, N. Y. C., are records of many leading physicians who are already prescribing Bovac for their patients. For further information about this gentle laxative, simply write to that address. Buy Bovac at your Druggist, today!

SATURDAY BANK CLOSING

To the Public:

Pursuant to the new law which permits Banks in the State of New York to close on Saturdays, our Main Banking House and Central Branch will close at 3 P. M. on Friday afternoon of each week during the months of May to September inclusive, 1947, and remain closed until the following Monday morning.

We believe that this test period of Saturday closing and the reaction to it of our patrons will demonstrate whether or not this policy should be made permanent. If we find that our customers are unduly inconvenienced thereby, we will abandon such policy. In event no such inconvenience results, Saturday closing will probably be made permanent by us.

During this test period we request our patrons to inform us how Saturday closing affects them and to frankly express to us their opinions as to whether such policy should be abandoned or continued by us.

Nearly Half Million Awarded by State

Albany, N. Y., April 25 (AP)—The State Court of Claims awarded nearly half a million dollars during 1946.

The court's annual report, released yesterday by Clerk John J. Clark, listed awards totaling \$490,850.79 in 62 cases in which \$1,418,778.07 was asked.

Forty-one claims, in which \$1,719,719.96 was asked, were dismissed.

Largest award was that of \$115,000 made to the late Bertram M. Campbell who asked \$151,896 for false imprisonment.

Ruzzo Petition Is Before Committee

Laws and Rules Group Gets Change Application

Application of Sisto Ruzzo, 30 Maiden Lane, for an amendment to the city zoning law designating the former Rondout Presbyterian Church property at 4 Wurts street as a structure in the industrial area, was left with the Laws and Rules Committee of the Common Council for later recommendation to the legislators following a public hearing last night.

The application, accompanied by many signatures of residents of the sector, was without opposition and Ruzzo appeared in his own behalf.

Alderman-at-Large John J. Schwenk, who is a member of the committee, asked the applicant if it was fully understood by those who signed the petition that the property was to be used for an industrial purpose.

Ruzzo said his purpose was fully explained when he circulated the petition. He said, however, that he did not know at this time what kind of an industry would be housed in the building.

The hearing was conducted by Peter F. Simpson, Sixth Ward alderman, who heads the committee, with Aldermen James J. Carroll, Frank Oulton and Paul A. Zucca attending.

Central Figures at TB, Health Association Dinner

At the annual meeting and dinner of the Ulster County Tuberculosis and Health Association dinner, Thursday, in the Governor Clinton Hotel, approximately 200 persons heard about "Streptomycin and Research" in the fight against tuberculosis. Left to right are Dr. George Weber, director of Ulster County TB Hospital; Dr. H. McLeod Riggins, consultant to New York state hospitals on

streptomycin and research, who was the guest speaker; Harry S. Ensign, president of the Ulster TB and Health Association; Dr. George James, Ulster county health commissioner; Dr. Henry L. Bibby, chairman of the program committee and Miss Katherine M. Murphy, executive secretary of the TB and Health Association. (Freeman Photo)

Secretary's Report Reveals Health Activity in County

Reading her annual report to approximately 200 members of the Ulster County Tuberculosis and Health Association, physicians, nurses, members of the clergy, business men and women, Miss Katherine M. Murphy, R.N., executive secretary of the organization outlined its accomplishments in endeavoring to prevent and control disease in this area, and noted cooperation from the citizenry by generous contributions to the Christmas Seals sale, which reached an all-time high of \$21,170.46 as of April 1.

The report given at a dinner in the Governor Clinton Hotel, Thursday night, was as follows: Developments of great importance in the health program have come to pass in New York state during the past year. Governor Dewey's "master plan for an all-out fight on tuberculosis today throughout the state. A drop of between 25 and 40 per cent in liquor sales was listed at most points, topped by an estimated 50 per cent fall in some of the larger establishments at Newark.

The Ulster County Board of Supervisors is to be congratulated upon their progressive attitude and prompt action in taking advantage of this aid in the establishment of the Ulster County Department of Health which started to function officially on January 1. Since 1909, the Ulster County Tuberculosis and Health Association has carried on a public health program which has served in large part to demonstrate the need and pave the way for an expanded health program.

Through cooperative action of health authorities and the association we can accomplish much more for the health of our people if all concerned take advantage of the opportunities offered by the new program.

ASSOCIATION PROGRAM

HEALTH EDUCATION: Health education is the chief concern of the Ulster County Tuberculosis and Health Association. Everything we do and say is in a way directed toward the education of the general public especially about tuberculosis, the venereal diseases, diphtheria, and general health—education of community leaders to carry on the message, so that public opinion will support the professional groups while also bringing to the various professional groups the latest available information.

Methods through which we carry this health education to the public are talks, movies, pamphlets, posters, exhibits, newspapers and radio. Over 42,400 pieces of literature containing health information were distributed or mailed from the health office during the past year. Various groups receiving this health literature were all county doctors who were mailed lung and heart abstracts published monthly by the National Tuberculosis Association; the American Health Association; nurses, teachers, general and high school libraries. Industries received the industrial posters which are published monthly and health leaflets were distributed before and after the X-ray survey at their plants.

Seven hundred books, "Take Off," an appropriately written health message of the National Tuberculosis Association, were presented to all high school graduates last June. Exhibits were set up at the County Fair and in store windows in different communities in the county. With the spoken word and movies, we have reached about 7037 persons.

Other speakers were provided in several instances. These groups included granges, clubs, P.T.A.'s, child health consultations, church, school, fraternal and industrial groups as well as student nurses of Kingston and Benedictine Hospitals. Our moving picture, "Lease on Life," a general health movie, has proved very popular. The latest addition to our film library, "This Is TB," has already been shown to several groups in the interest of chest X-ray. "Safety Begins At Home" was also well received, especially in the schools.

We have added a number of bound health books to our office library and are at present planning to place several editions in the general and high school libraries throughout the county.

Through the cooperation of the newspapers, many news stories and items of health education have been printed. "Your Health," a weekly publication of the National Tuberculosis Association, put out within the past year, is sent week-

ly to The Kingston Daily Freeman.

Radio Station WKNY has been very generous in presenting our various health programs. The second series of transcriptions, "The Constant Invader" has been broadcast for the past 13 weeks. This newspaper and radio service is of inestimable value to a health program.

THE CHEST X-RAY: An encouraging development in the fight against tuberculosis during the past few years has been the enthusiastic response among industrial employees, school teachers, personnel and adults in general to opportunities offered for chest X-rays.

About 8,200 individuals in Ulster County have been X-rayed during the surveys carried on by this association since this project was started. During the past year, 3,824 persons took advantage of the survey program. The paper X-ray method was used. The X-rays when completed were read at the Ulster County Tuberculosis Hospital. Findings showing abnormal chest conditions appeared in 322 cases which were referred to the family physician. 159 of these cases were asked to report for further X-ray study.

Included in the past year's survey were employees of Hercules Powder Co., Port Ewen, Van Slyke and Horton's, and Baltz Pajama Factory; the Ulster County Highway Department, Jamaica Farmhands, the food handlers, barbers and hairdressers of Kingston and various city departments and individuals. Students of Christian Brothers and seminarians of Mt. St. Alphonsus as well as teachers, personnel and high school seniors of Ellenville, Highland, Kingston, Marlborough, New Paltz, Saugerties and Wallkill were also X-rayed. The entire student body and faculty of New Paltz State Teachers College were also done. One community X-ray survey was carried on in the town of Shandaken.

A most intensive educational campaign preceded this program. Several organization meetings were held. Two hundred special posters and 4,000 "fliers" announcing the date and place with reasons for having an X-ray were distributed. A special movie was shown in the theater. Registration was arranged at stores, churches, clubs, the post office, in industries and hotels, and a house to house canvass was made. All known organizations and many industries helped to make this project a success. 650 adults were X-rayed in the one day at Phoenixia. 100 per cent of teachers and personnel have been X-rayed in several of the central schools in the county and in all of the Kingston city schools. The Board of Education of Kingston and in several other places in the county now require a chest X-ray for all teachers.

During 1946, 2,454 persons were X-rayed through the consultation chest X-ray clinics held every Saturday and Monday morning at the Ulster County Tuberculosis Hospital. The executive secretary and nutritionist assisted at these clinics up to January 1 when the County Department of Health nursing service took over this work. Itinerant consultation clinics are now being held at various points in the county with Dr. George W. Weber, tuberculosis director, and the public health nurses. This is an important part of the expanded tuberculosis program in the new County Department of Health. The Tuberculosis Association has made arrangements to provide transportation for patients needing it to and from these clinics. For the past several years, transportation to and from the clinics at the Ulster County Tuberculosis Hospital has been furnished for patients when needed. We are also supplying the shoulderettes used by persons attending the itinerant clinics. We are indebted to the Sewing Department at Kingston High School for making up the shoulderettes for us.

REHABILITATION: Rehabilitation increasingly is being recognized as a form of treatment upon which the final success of case finding and medical care in tuberculosis depends. A new venture undertaken by our association in January of this year was the establishment of a rehabilitation program. Working with and under the medical direction of Dr. George Weber, superintendent, a rehabilitation director is now being employed at the Ulster County Tuberculosis Hospital to help patients prepare themselves as their cure progresses for a useful and productive life following the arrest of their disease and to help prevent possible future relapse. This entire program is being fi-

Station WKNY for the past 12 weeks.

NUTRITION: During the year, the staff assistants, majoring in nutrition education, cooperating with the State and County Departments of Health, has held 457 conferences with mothers attending 84 consultations and dental clinics. Exhibits covered at these meetings were growing gardens, food conservation, good box lunch, apples, food sources of Vitamin C and milk. At present, we are planning to demonstrate the proper cooking of eggs and vegetables and the use of dried skim milk. This year, a better breakfast project was carried on with students of one rural school and of one parochial school in the city. Two dental shows were promoted during the year to stimulate good dental care and proper nutrition. 4680 children participated in the Dental Puppet Show in the spring when it was presented at 31 schools in the county.

During September, we sponsored the Dental Magic Show in 8 of the city schools and in 75 schools in rural areas. 4976 persons saw the show. To insure better followup in the care and treatment of teeth, letters were sent from the office to every child who saw the show. The children were asked to answer these letters. Many interesting and humorous ones were received. Each child received a answer as a followup project.

COMMUNITY COOPERATION: Cooperation with all existing agencies in the county who are working toward improving the health and welfare of the individual is an essential to any well integrated program of health education. We aim to do our part. We give assistance when we find it is needed and many of the voluntary agencies have furnished help for us on various occasions. We keep in close con-

tact with our official agencies. To our new County Department of Health we have offered our full cooperation. It is also important that we keep the public fully informed of the facilities which the health department offers so that they may appreciate their value and make proper use of them. Many people come to our office for information and advice about care, institutions, clinics and health services. We are glad to be centrally located and to be of assistance to patients, their families and friends. Literature and books are available at all times at the office for teachers, nurses, and for individuals who may wish to use them.

LEGISLATION: We are constantly kept informed by the State Committee on Tuberculosis and Public Health about health and welfare bills which come up in Albany and Washington. We have sent on this information to our members and leaders and asked for their support when it was necessary. The same attention has been given to the defeat of bills detrimental to the health and welfare of our people.

CHRISTMAS SEAL SALE: The funds for making our health program possible come from the annual Christmas Seal sale. Ulster county people are always generous in supporting the tuberculosis fight and never more than in 1946 when the total raised reached an all time high of \$21,170.46 April 1. Cooperation from various groups—the newspapers, the radio station, various organizations, business people and interested individuals working in the campaign—all went to make the seal sale this great success.

The gift was still on the wedding ring of the customer who was buying a cookery book.

"I think I'll take this small one at fifty cents," she said at length.

"We have a large edition of that at \$2," the assistant said temptingly.

"No, thank you," replied the bride-sister, "you see, both my husband and I are small eaters."

Mary had a little lamb.

But that was in the good old days
When we burned anthracite.

Two old maids were discussing men. "Which would you desire most in your husband; brains, wealth or appearance?" asked one.

"Appearance," snapped the other, "and the sooner the better."

Cop—What's a mean golf fifty miles an hour?

Pretty Motorist—My brakes don't work and I was hustling to get home before I had an accident.

Victim—What? Three dollars for pulling a tooth? You certainly earn your money very quickly.

Dentist—Oh, if you prefer, I can do it very slowly.

Visitor—Look at that man swimming out there. Isn't he afraid of sharks?

Native—Oh, no, he's got "Texas" on his chest, and even a shark won't swallow that!

Note to the girls: Many a man isn't worth catching with perfume at \$20 an ounce.

—Grit

Dan—Yes, I liked the army, and did very well in it.

Nan—Did you get a commission?

Dan—Nope—straight salary and expenses.

Mr. Jones—What are we to have for dinner?

Mrs. Jones—Sponge cake, dear. I sponged the eggs from Mrs. Higgins, the flour from Mrs. Brown and the milk from Mrs. Smith.

Long experience has taught me that a man who thinks before he speaks doesn't have to think up so many explanations. Therefore I always think at least two seconds before writing a paragraph like this one.

Kingston High Wins Senator Desmond Sportsmanship Trophy

DUSO Champions Are Rated Best Sportsmen in the League

Kingston High School has been declared winner of the Senator Thomas F. Desmond Sportsmanship Trophy and Banner for the 1946-47 DUSO basketball season, league president, Ervin R. Fletcher, of Port Jervis, announced today.

The trophy, presented by Senator Desmond, Orange Republican, will be awarded annually for the encouragement of better sportsmanship in interscholastic basketball games, and will be in the possession of the winning school for the year only. It will be passed along to the next school receiving the vote of the eligible persons selected to ballot after each game.

The banner, presented by Senator and Mrs. Thomas E. Desmond, becomes the permanent possession of the winning school.

Official ballots of the various basketball officials, coaches and faculty representatives of the DUSO League schools were counted and tabulated by a special committee consisting of Supervising Principal Kenneth Rutherford of Monticello; Alvin E. Chase, Port Jervis High; and Jack Hughes, Middletown High School.

Kingston won the 1946-47 DUSO championship, defeating Liberty in the playoff at Middletown and then went on to capture the Section Nine Class A title.

School Is Praised

The most hearty congratulations were extended to the Kingston superintendent, principal, and coach for their excellent display of fine sportsmanship during the basketball season, DUSO President Fletcher said.

The DUSO League, at its meeting on April 22 at Port Jervis, acted favorably on the application of Fallsburgh school for admission to the league. The Fallsburgh school will be admitted to the league to participate in all sports except basketball for which adequate facilities are not now available.

Belloise to Fight Walker

New York, April 25 (AP)—Steve Belloise, the prewar middleweight title contender, goes after his 24th victory in 25 starts since his discharge from the navy when he faces Johnny Walker of Philadelphia in a 10-round bout tonight at the St. Nicholas Arena, Belloise turned back twice by the then champion, Ken Overlin, is rapidly regaining the status he enjoyed before he donned a uniform and has knocked out 16 opponents since returning to action. Walker, a crafty, cagey warrior, represents a dangerous assignment for the ring-wise Bronxite, having scored over Ossie Harris, Smugsey Hursey, Jerry Fiorello and others.

Louis Will Await Eliminations, Then Take on Winner

New York, April 25 (AP)—With no logical contender in sight, there's going to be an elimination contest to pick a challenger for Joe Louis' heavyweight crown. Insisting he didn't want anybody "to have a right to holler," the champion has called off his title defense scheduled for Yankee Stadium June 26 and offered to fight in September providing a suitable opponent is turned up by that time.

Louis, accompanied by his managers, Marshall Miles and John Roxborough, arrived from Los Angeles yesterday and conferred with Sol Strauss, acting director of the 20th Century Sporting Club. Then they called in the press and announced abandonment of the June bout and plans for the elimination program. Strauss said the southpaw Melio Bettina will be matched against Light Heavyweight Champion Gus Lesnevich in Madison Square Garden May 23. Jersey Joe Walcott will fight Joe Maxem in Hollywood June 16. The winners will be paired in a New York fight and Strauss said he hoped he could name Louis' opponent by July 15.

"As I see it," a mustachioed Louis said from under a blue-gray fedora, "there's only three men in the running. Lesnevich ain't in it, only Bettina, Walcott and Maxem. If we picked any one of 'em now, the other two would have a right to holler. I want to fight the best one and I want it so nobody will have a right to holler."

No matter whether they found him an opponent by September or not, Louis said, he had no intention of retiring before defending his title at least once more. News-men recalled what he said in Los Angeles last week about retirement.

"I will be through fighting" after 1948," the champion was quoted as saying. "I never did say I was definitely going to retire. I said if a good opponent wasn't found I couldn't wait around forever and would have to quit. That's what I meant by retiring."

Dodgers Buy Contract Of 2 New Outfielders

Purchase of the contract of Jimmy Cahill, outfielder from the Olean, N. Y. club of the Pony League, was announced today by Paul Taylor, business manager of the Kingston Dodgers.

Cahill, who played 79 games in a utility role for Olean, was rated one of the most popular players in the Class B circuit. In the popularity contest in Olean he was barely nosed out by the leading home run swatter of the loop.

The newest addition to Dodger roster batted .264 last year, stroking 8 doubles, 8 triples and a pair of round trippers. His fielding for the elimination program.

Strauss said the southpaw Melio Bettina will be matched against Light Heavyweight Champion Gus Lesnevich in Madison Square Garden May 23. Jersey Joe Walcott will fight Joe Maxem in Hollywood June 16. No matter whether they found him an opponent by September or not, Louis said, he had no intention of retiring before defending his title at least once more. News-men recalled what he said in Los Angeles last week about retirement.

"I will be through fighting" after 1948," the champion was quoted as saying. "I never did say I was definitely going to retire. I said if a good opponent wasn't found I couldn't wait around forever and would have to quit. That's what I meant by retiring."

Rebel's Mistress Turns Out To Be Paraguayan Spy

Rio De Janeiro, April 24 (AP)—"Selma the Terrible," enchanting, scandalously dressed Paraguayan Government spy, is the object of a frantic search by Paraguayan Rebels, dispatches from the border said today.

The dispatches said the lady completed an espionage mission for the government, completely receiving the Paraguayan Rebels in their headquarters at Concepcion, and then disappeared.

Aspress, Brazilian news agency, reported from the Brazilian border town of Ponta Porã: "There was in this city for a few days a Paraguayan Government woman spy, who mysteriously disappeared, leaving the rebels at Ponta Porã in a panic."

"She was an enchanting woman, always wearing expensive, scandalous dresses, and pretended to be an ardent rebel."

"The first moment she arrived here in Ponta Porã, she immediately contracted the rebels, becoming the mistress of an important rebel leader who is the best dressed man on this frontier."

Visited Telegraphers

"She used to visit constantly in Ponta Porã Telegraph Station, talking with the telegrapher and all persons who sent telegrams."

"Selma the Terrible—as the rebels used to call her—was always insisting upon going to Concepcion to have an opportunity to speak over the radio, 'Voice of Victory.' Finally she got permission to speak on the radio. Her speech was censored. However, Selma read the speech as originally written, especially emphasizing phrase 16."

"Sought by police in order to explain why she disobeyed censors' instructions, Selma was not found in Concepcion. Pedro Juan Caballero or Ponta Porã. Only then did the rebels discover her true mission. She was sent by the Paraguayan Government to spy on rebel activities and send military information. This authentic Paraguayan Mata Hari caused a tremendous sensation among the rebels, principally to her lover."

When you pull up a chair to kibitz a rubber bridge game in Indianapolis you never know what is going to happen next. Today's hand was sent to me by Walter J. Pray of Westchester.

His partner was William K. Cooper, a youngster of 76 who has been playing bridge for 50 years.

Pray says that Mr. Cooper is just as keen about the game as the young fellows (like Pray himself, who is 61).

This hand was quite a freak, but many East players would open with five clubs as Mr. Cooper did?

And how many would go to six clubs with the West hand?

However, Walter Pray would say that you are a coward if you would not, and his redouble was put in just to make the game more spirited.

The opening diamond lead was trumped in dummy with the five of clubs and a small spade was led. North played the queen. Mr. Cooper ruffed, led a small diamond. South played the queen and dummy ruffed. Another spade was ruffed by declarer and the six of diamonds ruffed in dummy. The third spade was ruffed by East, and the seven of diamonds ruffed in dummy with the jack of clubs.

Thus Mr. Cooper made six clubs doubled and redoubled with an overtrick.

Each Time a Cow Freshens

Udderole is made by a new, scientific formula, containing irradiated lincolin and other highly effective ingredients. It gives powerful 3-way help. 1. Relieves the congestion. 2. Reduces swelling and inflammation. 3. Fights infection. Use it on your valuable first calf heifer. Farmers re-order and say "Udderole is the best I ever used. Can't afford to be without it." The 4-oz. tin costs only \$1.00.

DOUBLE MONEY-BACK GUARANTEE

If Udderole doesn't do all we claim, if you feel you can add to your cash it—return unused portion to Dawnwood Farms, Arden, N.Y., and receive not \$1.00, but \$2.00—double your money back. You can't lose, so try Udderole.

Accusees Churchill

St. Andrews, Scotland, April 25 (P.M.)—Minister Attlee accused Winston Churchill today of directing a "torrent of abuse" at his administration without offering a "drop of policy." Addressing the Scottish Trades Union Congress here, Attlee struck back bitterly at the Conservative party leader's Prime Minister League speech in London a week ago in which Churchill said "the Socialist government are living upon the American dole."

ried on without hardship to the local taxpayers.

Valuation Is \$20,271,548

The true valuation of the proposed centralization is \$20,271,548. While the assessed valuation is \$10,217,880. The true valuation is divided among the towns as follows: Olive, \$11,724,041; Shandaken, \$4,832,876; Woodstock, \$3,583,075. The two Lexington districts have a true valuation of \$131,556.

The true valuation would be one of the highest in the state and it should be easy to maintain the new district without undue hardship on any taxpayer. The current industrial situation is such, however, that building costs forbid the erection of new school buildings at this time. Therefore, it is planned to centralize the area and operate under the centralization law even though the

new buildings may not be ready for occupancy until 1950, or possibly even later. There would be definite educational advantages for the pupils in the Fourth Supervisory District immediately after centralization became effective, before the new buildings were erected.

The nine-member Board of Education, with three members from each town, would assume responsibility for the new district on the July 1 following their election, and it is expected the board immediately would engage a clerk who would serve the board and their executive officer, the supervising principal. They would hire, too, a school nurse and supervisors in art

and music and physical education. While the Board of Education in a centralized district has much responsibility and power, they never have the power to close a local school for the first six grades without the consent of the voters in the local district.

Will Offer Politics Bill

Washington, April 25 (P)—A bipartisan bill redrafting all laws regulating federal elections and

making the sky the limit on spending in presidential campaigns will be introduced Monday by Senator Ellender (D-La.). Ellender said today the measure will have the backing of both Republicans and Democrats on the 1946 Senate Campaign Expenditures Committee which he headed. It is designed, he added, to wrap into a single package changes advocated by members of both parties as a result of experiences with the Hatch Clean Politics and Corrupt Practices Acts.

25-Room Resort

Continued from Page One
discovered, the St. Remy Fire Department was notified and did good work in saving adjacent out-buildings. The house was completely destroyed and today only the chimney and foundation stands.

While no definite cause of the fire could be fixed today, Mr. Dugan stated that the fire had apparently started in the room from an oil stove. When he opened the door of the room, Mr. Dugan said the flames leaped out and drove him from the house.

No Phone for Alarm
When notified of the fire Mrs. Skurba became hysterical for a time, Mr. Dugan said, and since the telephone was not in working order it was necessary to drive to the fire station some distance away to sound an alarm. When Mrs. Skurba was able to drive a car to the firehouse the flames had obtained a good start. Rifton, Port Ewen and St. Remy firemen were notified and the Kingston Fire Department was also alerted and went to the scene but owing to lack of water and the start the fire had gained it was impossible to save the house.

Mr. Dugan said he made repeated attempts to go back into the house to save some of the contents and to get a small amount of cash which he had in his apartment but each time he was driven back by the heat.

Gas, Kerosene Add to Flames
During the fire the connections on two bottled gas tanks melted and the gas added to the flames. Also a 50 gallon drum of kerosene which had been filled the day before exploded and added fuel to the fire. The gas tanks were under the porch and the kerosene was on the porch by the Dugan apartment.

The premises is known locally as the Thompson Homestead and was occupied some time ago by the Thompson family as a dairy farm. Since the Skurbas family has owned the property a large addition containing several rooms has been added. At present the house is known as Shady Brook Farm and is located on the southern side of St. Remy-Rifton road about midway between St. Remy and Rifton.

During the afternoon fire flames spread over a considerable area of grass. Again last evening the fire broke out and word was sent to Kingston for aid. A truck was sent to the scene.

John P. Heitzman, seaman, first class, son of Mr. and Mrs. C. J. Heitzman of 93 Hoffman street, is serving aboard the attack cargo ship U.S.S. Winston. Heitzman entered naval service on June 27, 1946, and received his recruit training at Bainbridge, Md.

Charles Granville Crispell, ship-fitter, third class, U.S.N., of 27 Alcazar avenue, is serving aboard the destroyer U.S.S. Brownson, which has returned to the United States after participating in "Operation Highjump" the Navy's 1947 expedition to the Antarctic. On her homeward journey, the Brownson visited Rio de Janeiro, Brazil, and liberty was enjoyed by all hands.

Schechter Elected Zionist Leader

Other Officers Are Chosen at Temple This Week

At a meeting in Temple Emanuel on Monday the Kingston Zionist Organization elected for the coming year the following officers: Ben Schechter, president; Rabbi Herbert I. Bloom, first vice-president; Nat Becker, second vice-president; Louis Schwartz, secretary and Dr. Samuel Zimet, treasurer.

Installation services are being planned for May 19 at which Zionists from the entire state are expected to attend. During the meeting Monday Rabbi Herbert I. Bloom spoke, presenting an interesting message to the members. Rabbi Plotke also spoke, impressing on the members the need of recruiting more members.

Following the meeting the Zionists joined with Hadassah in listening to M. Bjose who gave a talk about the Histadrut in Palestine.

Church Sets Goal

the congregation around that corner.

Referred to Committee
The matter of offering additional footage on the Wall street side of the church property for the possible widening of the street was referred to a committee for further investigation.

The congregation also voted to enlarge the governing body known as Consistory to 12 men instead of the customary eight. This decision was unanimous because the church growth demanded more representation. The members will be elected for a term of two years, the current practice. In order to set-up a rotation system only ten men will be serving during the coming year.

In accordance three new elders and three new deacons were elected last night to serve with two elders and two deacons whose two year term has not expired.

The new elders are M. Clifford Miller, N. Jansen Fowler, Albert E. Milliken; new deacons: Charles Goble, Jr., Henry Millonig and George Shivery. They will serve with Elders Arthur J. Laidlaw, Dr. J. P. Reading and Deacons Clair Sheaffer and Jacob Tremper. The new consistorymen will be installed in June.

Gifts Are Presented

Prior to the business meeting gifts from the congregation were presented to the Rev. and Mrs. Arthur E. Oudemool in token of appreciation for their guidance and fellowship during the twelve years in which they have been at the church. B. C. Van Ingen made the presentations recalling the revival and growth in the church since the Rev. Mr. Oudemool assumed his duties, April 28, 1935.

Edward C. DeWitt as senior elder of the consistory conducted the meeting. Annual reports were read by Miss Betty Whispell, junior Christian Endeavor; Miss Ann Page, senior Christian Endeavor; Miss Dorothy DuMont, Church school; Charles Back, Boy Scout Troop 12; Miss Caroline Little, Tri-M Club; Mrs. James Hungerford, Couples' Club; Miss Florence Tappen, Women's Guild; M. Clifford Miller, Men's Club; Mrs. C. B. Dickinson, World Fellowship Chapter; Mrs. George Shivery, Girl Scouts; John Haulenbeck, choir program.

Before the meeting a covered dish supper was held. The adult choir under the direction of Mrs. Raymond H. Rignall sang two secular numbers: "Into the Night," Clara Edwards and a parody on the nursery rhyme, "Old King Cole." Miss Caroline Little accompanied at the piano.

May End by Tuesday

New York, April 25 (AP)—District Attorney Miles P. McDonald says he may complete by Tuesday the state's case against two men charged with grand larceny in the alleged \$750,000 swindling of the Merchants Linotype Co. On trial are Julius Lobel, alias Jimmy Collins, and Irving "Lizzy" the Bell Cohen, who the state contends, helped William Arthur Nickel, former bookkeeper for Merchenthaler, in cashing Merchenthaler checks issued for goods it never received.

Good Taste Today

By Emily Post

(Author of "Etiquette," "Children Are People," etc.)

A WEDDING PLAN TO BE AVOIDED

I had intended to write on this subject anyway and the morning's mail merely added the following reminder: "My son is being married and I have been told that following the large church ceremony, there will be a private dinner for the families and a large reception following that. Would it be entirely courteous to let the uninvited guests wait in idleness during the time the families are eating their dinner and before they are ready to receive the guests at the reception? In other words, is this a usual custom or does it simply seem strange to me?"

A year ago this would have been unheard of question. In the last few months, however, I have had a number of letters describing very much the same idea. But I am not sure how this is managed and I cannot imagine what the guests are supposed to do. Those who have come from a distance certainly would find themselves in an awkward predicament. It seems to me even those living near-by and having to go home to dinner (or supper) would be inclined to stay there. Properly, the wedding should be at an in-between meal hour or the reception immediately following should supply a reasonably satisfying amount of food for everyone.

Chronic Telephonitis

Dear Mrs. Post: I have a friend who is very popular on the telephone. I have yet to pay her a visit that she isn't called to the telephone several times. What I do object to, however, is that she talks and talks and never explains that she has a visitor. Shouldn't this be done under such circumstances?

Answer: Decidedly yes, if possible—which should be more often than not.

Wedding Announcements

Dear Mrs. Post: Should wedding announcements be sent only to people who might not otherwise hear of the marriage or are they supposed to be sent to everyone near and far regardless?

Answer: Near and far regardless, unless the marriage is that of one who has been divorced, in which case they are sent only when and where necessary.

Mrs. Post's booklet, No. 501, "Etiquette of Weddings," explains all of the details from the announcement of the engagement to the departure of the bride and groom as they leave their friends. To obtain a copy send 10 cents (coin preferred) and a three-cent stamp to her, care of The Kingston Daily Freeman, Post Office Box 99, Station G, New York 19, N. Y. Mrs. Post is sorry she cannot answer personal letters. (Released by The Bell Syndicate, Inc.)

Veto Is "Assured"

Washington, April 25 (AP)—Senator Ball (R-Minn.), predicted today that the Senate will write more restrictions on unions into its general labor bill—and Senator Aiken (R-Vt.), said that would "assure" a presidential veto. Ball and Aiken, both members of the Senate Labor Committee, expressed their views in separate interviews as the Senate got set to resume debate (noon E.S.T.) on legislation to curb strikes and limit union activities.

Washington, April 25 (AP)—President Truman today signed a bill establishing the Theodore Roosevelt National Memorial Park in North Dakota and providing for a monument to the former president in Medora, N. D.

Rondout Valley Sunday School Association Resumes Fellowship Convention, First in 5 Years

Rondout Valley Sunday School Association will hold a spring fellowship convention at Rosendale Reformed Church Friday evening, May 2. This is the first time the Sunday Schools of the Rondout Valley have assembled since 1942 when the war, shortages and restrictions banned such meetings. The highlight of the convention will be an address by County Judge John M. Cashin speaking on young people and their problems as they come before the Judge for direction and settlement. There will be but one session for the convention starting at 8 p. m. The choir of the church will lead in the singing and furnish musical numbers. Election of officers will be held. Refreshments will be served by the Rosendale Reformed.

Not less than 500 delegates are expected to attend the convention. Each group of delegates is asked to register upon entering the church.

Local Pastor Will Assist in Burning Church Mortgage

Dr. O. Louis Schreiber, pastor of St. Paul's Evangelical Lutheran Church, left this morning for Jersey City, N. J., where he will take part in this evening's ceremony of burning the church mortgage at the Calvary Evangelical Lutheran Church on Hudson Boulevard.

Dr. Schreiber was the first pastor of this church and it was under his pastorate that the mortgage was incurred. Dr. P. Knobel, president of the Synod of New York, will be the guest preacher.

U.A.W. Settles With G.M.

Detroit, April 25 (AP)—The C.I.O. United Auto Workers settled with General Motors Corp. last night for an 11 1/2 cent basic hourly wage increase, but U.A.W. President Walter P. Reuther said the union had gained "a total economic package well over 15 cents." The new agreement—being prepared for corporation and union signatures today—was expected to set a pattern for the auto industry's wage drive this year. Under its

terms 220,000 General Motors production workers will get, in addition to the hourly boost, pay for six holidays which the corporation said is equal to an additional 3 1/2 cents an hour, and new vacation benefits.

Will Demand Action

Washington, April 25 (AP)—Senator Ferguson (R-Mich.), said today he will demand that Congress override President Truman's veto of a resolution to let Burton K. Wheeler act as special counsel for the Senate War Investigating Committee. The President himself, standing by the veto despite his long friendship with Wheeler, suggested that if Congress will simply repress the measure in somewhat different language he will sign it.

Y.M.C.A. Financial Drive Opens With Great Enthusiasm

The Kingston Dodgers, in training here for the coming season, gave a realistic touch to the sports element in Y.M.C.A. work by their presence at the colorful banquet Thursday evening, which opened officially the organization's financial drive for 1947.

During the evening each player responded as his name and ball diamond position was announced by the team's captain, "Sugar" Scherger. When the players left, just before the drive business session got underway, they were given a generous hand of applause and best wishes for a successful summer in America's most popular outdoor game.

President of the Board of Directors, Clarence Rowland, keynoted the drive and this year's Y.M.C.A. program in which he pointed out many of the vital recreational elements in the work of the organization. His speech was followed by an inspiring address by Judge John M. Cashin, guest speaker of the evening.

Goal of the drive this year is for \$20,000. Already several gift donations have been received. During the business session that followed the banquet each ward team checked the part that it would play in the work of soliciting for the drive. Great optimism was felt by both the experienced and new workers in this important phase of "Y" response.

The general feeling is that the 1947 campaign for local support of the organization will be more than successful, as has been true of other financial drives in the past.

Those seated at the head table were: The Rev. Frank Goldnick, Dr. Cain, John M. Cashin, Clarence S. Rowland, Sr., Dwight McEntee, Lynn Morgan, William Mould, Frank Clark, Harold Bald, Elder D. Lee Moses, Bill Burnett, Edward Bruck, Walter Dougherty, Edward Edwards, W. Mahoney, Robert Hunt, Harry Giles, Walter Cornerford, Kenneth Jeppner, Irving Scott, Chet Diffley, Vincent Rathgeber, Richard M. Brown, Walter Stetson, Bill Lifer, Marian Radcliff, Joseph Blass, Donald Bernard, Richard Newman, John Dawkins, Carl J. Faltz, Jr., James Dickerson, Anne Borsch, Thomas Lodge, Jr., Rudolph Turk, Arthur Russell, J. Edwards, Robert Morris, Mr. and Mrs. Ralph Deyo, Kenneth Boughlan, Al Groschen, W. J. Hogan, Marge Voigt, Allan Vogt.

The directors attending were: Ernest LeFevre, Clyde Wonderly, Jr., Clyde Wonderly, Sr., Chester Bantz, Sr. James Sutcliffe, Herman Schwendler, Emil Boeckneck, C. C. Rose, A. T. Young.

Smallpox Clinics To Be Held in County

Next Tuesday smallpox vaccination clinics will be held in the town of Hardenburgh at both Dry Brook and Turnwood at 11 a. m. and when these clinics are held it will have completed at least one clinic in every town of the county. In many of the towns several clinics have been held.

Today from 4 to 6:30 a clinic is scheduled at the health center on East Otisville street, Kingston and at Cayce bridge a clinic will be held from 4 to 6 p. m.

Saturday clinic will be held at Marlborough Central School from 10 to 12 noon.

The County Health Department will continue to sponsor clinics in Kingston until the emergency is over.

Fund Report Meeting To Be Held Tonight

Final report meeting for the Ulster County Girl Scout campaign fund will be held tonight at 8 o'clock in the Y.M.C.A. All workers, chairmen of wards, and any who have assisted in the drive are asked to be present.

The Rev. Father Kelly of Rosendale will be the guest speaker. Anyone interested in scouting is invited to attend.

Report on Lunch

Continued from Page One
Lunches have been served free to needy students.

State Aid Falls Short
Last year when the Board of Education made up its annual budget and estimate of the amount of state aid was included as usual, to be deducted from the amount necessary to be raised by local taxation. At that time it was estimated that the State Aid would be \$401,016.50, based on attendance the previous year. At the meeting of the Board Thursday evening a report of State Aid was submitted showing the actual state money had amounted to \$397,717.75. The estimated amount to be deducted for payments to "Teachers' Retirement Fund" was \$35,857 and the actual amount deducted was \$35,150.88. The actual amount of State Aid money received by the Kingston Board from the state was therefore \$952.63, a less than had been estimated in the budget a year ago. Public money is based on actual attendance of students at school.

The report shows that the public money was received in three payments, one of \$179,245.87 on April 15, 1947, one on January 15, 1947 amounting to \$65,560 and one on September 16, last of \$101,400. Retirement deductions are returned by the state on each payment.

On April 22, 1947, the first quarterly payment of money toward the teachers' living bonus under the Teachers' Salary Emergency Increase Fund, as authorized by the State Legislature last January, was received. This first quarterly payment amounted to \$15,025 and represents the \$20 per month bonus which was authorized by law and is paid by the state to all district teachers. The money has been paid to teachers in their regular pay checks.

The Board audited the April pay-roll amounting to \$61,547.30 and also bills amounting to \$23,670.70.

Permission for Science Show
Permission was granted Colonial City Chevrolet to sponsor for General Motors dealers an educational show at the high school auditorium on June 20 when the film "Facts of Physics and Science" will be shown under auspices of General Motors. The film will be free to the public.

An invitation from the Kingston Veterans' Association for the high school band to participate in the annual Memorial Day parade was received and accepted.

Board members were invited to attend the New York School Board Association's Conference at Arlington on April 25 when the New Rochelle board president will be in charge of the meeting.

Permission was granted the 4-11 Club to use several rooms in the high school on May 10 for the Girls' Demonstration Practices work. This is an annual session.

'Wings over Jordan' Musicals
Permission was granted for use of the auditorium for the "Wings Over Jordan" musicals on Monday.

A communication from the Veterans' Free Expert. Service was referred to the Building Committee. The firm seeks tree work.

Kiwanis Scholarships
A communication was received from the Kingston Kiwanis Club notifying the Board that the club was sponsoring five \$200 scholarships for boys of the high school. The Board accepted the proposal with thanks and members of the graduation class will be acquainted with the conditions by Mr. Lamm.

Attention was also called to the Jane Stanborough Fund under which worthy students may secure a scholarship loan. This matter will also be explained to students by Principal Dunn.

A communication was received from the County Health Department regarding an inspection of the school cafeteria. It was suggested that additional refrigeration be provided for storage of milk. Other cafeteria conditions were found to be excellent. The matter of additional refrigeration was referred to the Building committee.

Selling Course
Notice of a school for employees from Kingston stores to be held on May 5 and 6 and May 12 and 13 for the purpose of instruction in retail selling was given. This program is under the Distributive Education Program and is for adult education. At the school which will be conducted under the guidance of Ulster Technical Institute, will be an instructor in retail selling. It is expected Mr. Hudrick of Ulster Technical Institute will be present. The cost of the instructor will be \$10 and that cost will be born

through money from the Federal and State funds for Distributive Education work. The program is being sponsored by retail merchants of the city.

Get Cash Register
Trustee Leech for the Building committee reported on work done at various schools. The fire escape at the high school is up and outlets have been installed for the cafeteria cash registers in the high school and the M.J.M. school. Other work at the high school gym and cafeteria has been completed and the projection room at the M.J.M. has been installed in the M.J.M. cafeteria. At No. 2 the gym floor has been refinished. The fire escape at No. 5 is now being erected. At No. 6 a right-hand additional fence has been erected on top of the present fence on Bruyn avenue to prevent school athletics from encroaching on adjacent property. Copper water lines have been installed and a gate is being placed in the fence on Bruyn avenue. At No. 8 the basketball poles have been replaced.

Superintendent A. J. Laidlaw made his monthly report and the board adjourned.

32 Japanese Had Plenty Of Food on Peleliu

Peleliu, April 25 (AP)—Thirty-two Japanese who surrendered a few days ago on this jungle island didn't suffer too much from their long isolation. They had plenty of food stolen from the Americans. U. S. Marines who visited their two hideouts found them well stocked with medical supplies as well as rations, all taken from American dumps. One of the hideouts was a five-story cave on Bloody Nose Ridge complete with a free water stream. The other was in a swamp only 400 yards from Peleliu's main road. It was so cleverly hidden it could not be spotted 20 yards away. The Japanese, who surrendered two and one-half years after the island was captured by Marines, were treated as disgraced military personnel instead of prisoners of war.

Britain Draws Again

Washington, April 25 (AP)—Britain has drawn on the U. S. Treasury for another \$250,000,000 of her \$3,750,000,000 loan credit. Disclosed by treasury reports today of its position, the withdrawal brought to \$1,550,000,000 the total withdrawn since the loan agreement was signed last July.

Salmon Steaks

By GAYNOR MADDOX
NEA Staff Writer
Supplies of salmon, both fresh and quick frozen, are coming in with increasing volume. Salmon is everyone's favorite.

Breaded Salmon Steaks Baked (Serves 6)

Two pounds salmon steaks, 1 teaspoon salt, 1 cup milk, 2 cups fine toasted bread crumbs, 4 tablespoons melted shortening. Add the salt to the milk and stir until dissolved. Dip the fish into the salted milk and roll in crumbs. (Use the left hand for dipping and the right hand for rolling in crumbs.) Arrange on a shallow oiled baking sheet and sprinkle each piece sparingly with melted shortening. Bake in a 375 deg. F. oven for 20 minutes. Serve with tartar sauce.

Broiled Salmon Steaks (Serves 6)

Two pounds salmon steaks, 1 teaspoon salt, 1 cup milk, 2 cups fine toasted bread crumbs, 4 tablespoons melted shortening. Sprinkle both sides of each steak with salt and pepper and let stand 10 minutes to absorb the salt. Lay steaks on a preheated greased broiler pan and brush with melted fat. Place pan in preheated broiler about 2 inches from the heat, cook for 5 to 8 minutes or until slightly brown, baste with melted fat, and repeat process on other side. Turn carefully. Remove carefully to a hot platter, garnish, and serve at once. Serve with whipped potatoes, buttered broccoli and a tossed vegetable salad.

Salmon Salad (Serves 6)

One and one-half pound can of salmon, 2 1/2 cups shredded lettuce, 1/4 cup diced celery, 1/2 cup minced green peppers, 3 tablespoons salad oil, 2 tablespoons lemon juice, 1/2 teaspoon salt, 1/4 teaspoon pepper, 3 medium tomatoes, 1/2 cup mayonnaise. Drain the oil and liquid from salmon. Combine the lettuce, celery and green pepper. Add the spices, salad oil and lemon juice. Mix lightly with a fork. Place this mixture in a salad bowl. Break the salmon into large flakes and spread over the top. Garnish with the mayonnaise and tomatoes cut in wedges. Serve immediately.

Chandler Summons MacPhail to Meet Him in Cincinnati

New York, April 25 (AP)—Commissioner A. B. Chandler, displaced about Larry MacPhail's apparent disregard for his "silence" decree on the Leo Durocher case, will summon the New York Yankee president to appear before him in Cincinnati next week, it was learned today.

Chandler, in town ostensibly to participate in the Babe Ruth Day ceremonies at the Yankee Stadium Sunday, has spent two days checking into the background of MacPhail's recent activities, according to a baseball insider. The commissioner, however, denied he had talked with MacPhail.

"I have had no talks with any baseball men except the men in my own organization," Chandler said. "We have been very busy since my arrival. Yes, I know about the Newark interview with MacPhail and I know all about the Drossen case."

"If there is to be any action taken in this case or any other case it will come in Cincinnati," Chandler stated flatly. "I expect to return to my office Monday afternoon."

Financial and Commercial

New York, April 25 (AP)—A few stock market leaders continued to operate in the plus-column today but numerous issues sought lower levels.

The General Motors and Bethlehem were both agreements, viewed as constructive, insofar as precluding strikes, although failing to touch off any real buying. The question of mounting costs and maintenance of high prices in these fields served to chill enthusiasm. Confused thinking over the business outlook, taxes, labor legislation and foreign affairs inspired a certain amount of liquidation.

New York Man Has To Round Up Cargo

Albert Stone, 161 West 12th street New York, looked behind at one point in his journey through town last night and discovered that he was missing a major portion of a cargo he was delivering to a summer place in the mountains.

Stone turned to retrace his course and meanwhile Mrs. John D. Schoonmaker of 281 Albany avenue, reported to the police at 6:35 p. m., that someone had lost a trailer in front of her house.

Officers James Burns and Earl Schoonmaker were sent to investigate and shortly after they arrived in a patrol car, Stone appeared to retrieve the trailer which he said contained pumping equipment for use at a mountain boarding house.

Nearly Half Million Awarded by State

Albany, N. Y., April 25 (AP)—The State Court of Claims awarded nearly half a million dollars during 1946.

The court's annual report, released yesterday by Clerk John J. Clark, listed awards totaling \$490,850.79 in 62 cases in which \$1,418,778.07 was asked.

Forty-one claims, in which \$1,719,719.96 was asked, were dismissed.

Largest award was that of \$135,000 made to the late Burton M. Campbell who asked \$151,896 for false imprisonment.

Ruzzo Petition Is Before Committee

Laws and Rules Group Gets Change Application

Application of Sisto Ruzzo, 30 Maiden Lane, for an amendment to the city zoning law designating the former Rondout Presbyterian Church property at 4 Wurts street as a structure in the industrial area, was left with the Laws and Rules Committee of the Common Council for later recommendation to the legislators following a public hearing last night.

The application, accompanied by many signatures of residents of the sector, was without opposition and Ruzzo appeared in his own behalf.

Alderman-at-Large John J. Schenck, who is a member of the committee, asked the applicant if it was fully understood by the property owner that the property was to be used for an industrial purpose.

Ruzzo said his purpose was fully explained when he circulated the petition. He said, however, that he did not know at this time what kind of an industry would be housed in the building.

The hearing was conducted by Peter F. Simpson, Sixth Ward alderman, who heads the committee, with Aldermen James J. Carroll, Frank Oulton and Paul A. Zucca attending.

Tavern Trade Recession
Newark, N. J., April 25 (AP)—A general recession in New Jersey's tavern trade was reported today throughout the state. A drop of between 25 and 40 per cent in liquor sales was listed at most points, topped by an estimated 50 per cent fall in some of the larger establishments at Newark.

Central Figures at TB, Health Association Dinner

At the annual meeting and dinner of the Ulster County Tuberculosis and Health Association dinner, Thursday, in the Governor Clinton Hotel, approximately 200 persons heard about "Streptomycin and Research" in the fight against tuberculosis. Left to right are Dr. George Weber, director of Ulster County TB Hospital; Dr. H. McLeod Riggins, consultant to New York state hospitals on

streptomycin and research, who was the guest speaker; Harry S. Ensign, president of the Ulster TB and Health Association; Dr. George James, Ulster county health commissioner; Dr. Henry L. Bibby, chairman of the program committee and Miss Katherine M. Murphy, executive secretary of the TB and Health Association.

Secretary's Report Reveals Health Activity in County

Reading her annual report to approximately 200 members of the Ulster County Tuberculosis and Health Association, physicians, nurses, members of the clergy, business men and women, Miss Katherine M. Murphy, R.N., executive secretary of the organization outlined its accomplishments in endeavoring to prevent and control disease in this area, and noted cooperation from the citizenry by generous contributions to the Christmas Seals sale, which reached an all-time high of \$21,170.46 as of April 1.

The report given at a dinner in the Governor Clinton Hotel, Thursday night, was as follows: Developments of great importance in the health program have come to pass in New York state during the past year. Governor Dewey's master plan for an all-out fight on tuberculosis with the objective of wiping out this dread disease in our state in twenty years or less was approved by the Legislature. Also passed was the measure for increased state aid for the establishment, organization and operation of county and city health department services.

The Ulster County Board of Supervisors is to be congratulated upon their progressive attitude and prompt action in taking advantage of this aid in the establishment of the Ulster County Department of Health which started to function officially on January 1.

Since 1909, the Ulster County Tuberculosis and Health Association has carried on a public health program which has served in large part to demonstrate the need and pave the way for an expanded health program.

Through cooperative action of health authorities and the association we can accomplish much more for the health of our people if all concerned take advantage of the opportunities offered by the new program.

ASSOCIATION PROGRAM
HEALTH EDUCATION: Health education is the chief concern of the Ulster County Tuberculosis and Health Association. Everything we do and say is in a way education—education of the general public especially about tuberculosis, the venereal diseases, diphtheria, and general health—education of community leaders to carry on the message, so that public opinion will support the professional groups while also bringing to the various professional groups the latest available information.

Methods through which we carry this health education to the public are talks, movies, pamphlets, posters, exhibits, newspapers and radio. Over 42,400 pieces of literature containing health information were distributed or mailed from the health office during the past year. Various groups receiving this health literature were all county doctors, who were mailed long and short abstracts published monthly by the National Tuberculosis and the American Heart Associations; nurses, teachers, general and high school libraries. Industries received the industrial posters which are published monthly and health leaflets were distributed before and after the X-ray survey at their plants.

Seven hundred books, "Take Off," an appropriately written health message of the National Tuberculosis Association, were presented to all high school graduates last June. Exhibits were set up at the County Fair and in store windows in different communities before and after the X-ray survey at their plants.

Other speakers were provided in several instances. These groups included granges, clubs, P.T.A.'s, child health consultations, church, school, fraternal and industrial groups as well as student nurses of Kingston and Benedictine Hospitals. Our moving picture, "Lenses on Life," a general health movie, has proved very popular. The latest addition to our film library, "This Is TB" has already been shown to several groups in the interest of chest X-ray. "Safety Begins At Home" was also well received, especially in the schools.

We have added a number of bound health books to our office library and are at present planning to place several editions in the general and high school libraries throughout the county.

Through the cooperation of the newspapers, many news stories and items of health education have been printed. "Your Health," a weekly publication of the National Tuberculosis Association, put out within the past year, is sent week-

ly to The Kingston Daily Freeman. Radio Station WKNY has been very generous in presenting our various health programs. The second series of transmissions, "The Constant Invader" has been broadcast for the past 13 weeks. This newspaper and radio service is of inestimable value to a health program.

THE CHEST X-RAY: An encouraging development in the fight against tuberculosis during the past few years has been the enthusiastic response among industrial employees, school teachers, personnel and adults in general to opportunities offered for chest X-rays.

About 8,200 individuals in Ulster County have been X-rayed during the surveys carried on by this association since this project was started. During the past year, 3,824 persons took advantage of the survey program. The paper X-ray method was used. The X-rays when completed were read at the Ulster County Tuberculosis Hospital. Findings showing abnormal chest conditions appeared in 322 cases which were referred to the family physician. 159 of these cases were asked to report for further X-ray study.

Included in the past year's survey were employees of Hercules Powder Co., Port Ewen, Van Slyke and Horton's, and Baltz Pajama Factory; the Ulster County Highway Department, Jamarian Farms, the food handlers, barbers and hairdressers of Kingston and various city departments and individuals. Students of Christian Brothers and seminarians of St. Alphonsus as well as teachers, personnel and high school seniors of Ellenville, Highland, Kingston, Marlborough, New Paltz, Saugerties and Wallkill were also X-rayed. The entire student body and faculty of New Paltz State Teachers College were also done. One community X-ray survey was carried on in the town of Shandaken.

The most intensive educational campaign preceded this program. Several organization meetings were held. Two hundred special posters and 4,000 "fliers" announcing the date and place with reasons for having an X-ray were distributed. A special movie was shown in the theater. Registration was arranged at stores, churches, clubs, the post office, in industries and hotels, and a house to house canvass was made. All known organizations and many industries helped to make this project a success. 650 adults were X-rayed in the one day at Phoenicia. 100 per cent of teachers and personnel have been X-rayed in several of the central schools in the county and in all of the Kingston city schools. The Board of Education of Kingston and in several other places in the county now require a chest X-ray for all teachers.

During 1946, 2,454 persons were X-rayed through the consultation chest X-ray clinics held every Saturday and Monday morning at the Ulster County Tuberculosis Hospital. The executive secretary and nutritionist assisted at these clinics up to January 1 when the County Department of Health nursing service took over this work. Itinerant consultation clinics are now being held at various points in the county with Dr. George W. Weber, tuberculosis director, and the public health nurses. This is an important part of the expanded tuberculosis program in the new County Department of Health. The Tuberculosis Association has made arrangements to provide transportation for patients needing it to and from these clinics. For the past several years, transportation to and from the clinics at the Ulster County Tuberculosis Hospital has been furnished for patients who needed it. We are also supplying the shoulder-boards used by patients attending the itinerant clinics. We are indebted to the Sewing Department at the Kingston High School for making up the shoulder-boards for us.

REHABILITATION: Rehabilitation increasingly is being recognized as a form of treatment upon which the final success of case finding and medical care in tuberculosis depends. A new venture undertaken by our association in January of this year was the establishment of a rehabilitation program. Working with and under the medical direction of Dr. George Weber, superintendent, a rehabilitation director is now being employed at the Ulster County Tuberculosis Hospital to help patients prepare themselves as they progress for a useful and productive life following the arrest of their disease and to help prevent possible future relapse. This entire program is being fi-

Station WKNY for the past 12 weeks.

NUTRITION: During the year, the staff assistant, majoring in nutrition education, cooperating with the State and County Departments of Health, has held 457 conferences with mothers attending 84 consultations and dental clinics. Exhibits covered at these meetings were growing gardens, food conservation, good box lunch, apples, food sources of Vitamin C and milk. At present, we are planning to demonstrate the proper cooking of eggs and vegetables and the use of dried skim milk. This year, a better breakfast project was carried on with students of one parochial school and of one parochial school in the city. Two dental shows were promoted during the year to stimulate good dental care and proper nutrition. 4660 children participated in the Dental Pup-pet Show in the spring when it was presented at 31 schools in the county.

During September, we sponsored the Dental Magic Show in 8 of the city schools and in 75 schools in rural areas. 4976 persons saw the show. To insure better followup in the care and treatment of teeth, letters were sent from the office to every child who saw the show. The children were asked to answer these letters. Many interesting and humorous ones were received. Each child received a answer as a followup project.

COMMUNITY COOPERATION: Cooperation with all existing agencies in the county who are working toward improving the health and welfare of the individual is an essential to any well integrated program of health education. We aim to do our part. We give assistance when we find it is needed and many of the voluntary agencies have furnished help for us on various occasions. We keep in close con-

tact with our official agencies. To our new County Department of Health we have offered our full cooperation. It is also important that we keep the public fully informed of the facilities which the health department offers so that they may appreciate their value and make proper use of them. Many people come to our office for information and advice about care, institutions, clinics and health services. We are glad to be centrally located and to be of assistance to patients, their families and friends. Literature and books are available at all times at the office for teachers, nurses, and for individuals who may wish to use them.

LEGISLATION: We are constantly kept informed by the State Committee on Tuberculosis and Public Health about health and welfare bills which come up in Albany and Washington. We have sent on this information to our members and leaders and asked for their support when it was necessary. The same attention has been given to the defeat of bills detrimental to the health and welfare of our people.

CHRISTMAS SEAL SALE: The funds for making our health program possible come from the annual Christmas Seal sale. Ulster county people are always generous in supporting the tuberculosis fight and never more than in 1946 when the total raised reached an all time high of \$21,170.46 April 1. Cooperation from various groups—the newspapers, the radio station, various organizations, business people and interested individuals working in the campaign—all went to make the seal sale this great success.

SATURDAY BANK CLOSING

To the Public:

Pursuant to the new law which permits Banks in the State of New York to close on Saturdays, our Main Banking House and Central Branch will close at 3 P. M. on Friday afternoon of each week during the months of May to September inclusive, 1947, and remain closed until the following Monday morning.

We believe that this test period of Saturday closing and the reaction to it of our patrons will demonstrate whether or not this policy should be made permanent. If we find that our customers are unduly inconvenienced thereby, we will abandon such policy. In event no such inconvenience results, Saturday closing will probably be made permanent by us.

During this test period we request our patrons to inform us how Saturday closing affects them and to frankly express to us their opinions as to whether such policy should be abandoned or continued by us.

Kingston High Wins Senator Desmond Sportsmanship Trophy

DUSO Champions Are Rated Best Sportsmen in the League

Kingston High School has been declared winner of the Senator Thomas F. Desmond Sportsmanship Trophy and Banner for the 1946-47 DUSO basketball season, league president, Ervin R. Fletcher, of Port Jervis, announced today.

The trophy, presented by Senator Desmond, Orange Republican, will be awarded annually for the encouragement of better sportsmanship in interscholastic basketball games, and will be in the possession of the winning school for the year only. It will be passed along to the next school receiving the vote of the eligible persons selected to ballot after each game.

The banner, presented by Senator and Mrs. Thomas E. Desmond, becomes the permanent possession of the winning school.

Official ballots of the various basketball officials, coaches and faculty representatives of the DUSO League schools were counted and tabulated by a special committee consisting of Supervising Principal Kenneth Rutherford of Monticello; Alvin E. Chase, Port Jervis High; and Jack Hughes, Middletown High School.

Kingston won the 1946-47 DUSO championship, defeating Liberty in the playoff at Middletown and then went on to capture the Section Nine Class A title.

School Is Praised

The most hearty congratulations were extended to the Kingston superintendent, principal, and coach for their excellent display of fine sportsmanship during the basketball season, DUSO President Fletcher said.

The DUSO League, at its meeting on April 22 at Port Jervis, acted favorably on the application of Fallsburgh school for admission to the league. The Fallsburgh school will be admitted to the league to participate in all sports except basketball for which adequate facilities are not now available.

It is expected that Fallsburgh will, within a short time, have a new building which will provide basketball facilities equal to those of any school in the area. The admission of Fallsburgh to the DUSO League will become effective in September, 1947.

Belloise to Fight Walker

New York, April 25 (AP)—Steve Belloise, the prewar middleweight title contender, goes after his 24th victory in 25 starts since his discharge from the navy when he faces Johnny Walker of Philadelphia in a 10-rounder tonight at the St. Nicholas Arena.

Belloise, turned back twice by the then champion, Ken Overlin, is rapidly regaining the status he enjoyed before he donned a uniform and has knocked out 16 opponents since returning to action. Walker, a crafty, easy warrior, represents a dangerous assignment for the ring-wise Bronxite, having scored over Ossie Harris, Smuggee Harney, Jerry Fiorello and others.

Atlantic City—Charlie Williams, 150, Newark, outpointed Andy Faison, 151, New York, 10-0.

Louis Will Await Eliminations, Then Take on Winner

New York, April 25 (AP)—With no logical contender in sight, there's going to be an elimination contest to pick a challenger for Joe Louis' heavyweight crown. Insisting he didn't want anybody "to have a right to holler," the champion has called off his title defense scheduled for Yankee Stadium June 26 and offered to fight in September providing a suitable opponent is turned up by that time.

Louis, accompanied by his managers, Marshall Mills and John Roxborough, arrived from Los Angeles yesterday and conferred with Sol Strauss, acting director of the 20th Century Sport-Club. Then they called in the press and announced abandonment of the June bout and plans for the elimination program.

Strauss said the southpaw Melio Bettina will be matched against Light Heavyweight Champion Gus Lesnevich in Madison Square Garden May 23. Jersey Joe Walcott will fight Joe Maxim in Hollywood June 16. The winners will be paired in a New York fight and Strauss said he hoped he could name Louis' opponent by July 15.

"As I see it," a mustachioed Louis said from under a blue-gray fedora, "there's only three men in the running. Lesnevich ain't in it, only Bettina, Walcott and Maxim. If we picked any one of 'em now, the other two would have a right to holler. I want to fight the best one and I want it so nobody will have a right to holler."

No matter whether they found him an opponent by September or not, Louis said, he had no intention of retiring before defending his title at least once more. News-men recalled what he said in Los Angeles last week about retirement.

"I will be through fightin' after 1948," the champion was quoted as saying. "I never did say I was definitely goin' to retire. I said if a good opponent wasn't found I couldn't wait around forever and would have to quit. That's what I meant by retirin'."

Dodgers Buy Contract Of 2 New Outfielders

Purchase of the contract of Jimmy Cahill, outfielder from the Olean, N. Y. club of the Pony League, was announced today by Paul Taylor, business manager of the Kingston Dodgers.

Cahill, who played 79 games in a utility role for Olean, was rated one of the most popular players in the Class B circuit. In the popularity contest in Olean he was barely nosed out by the leading home run swatter of the loop.

The newest addition to Dodger roster batted .264 last year, striking 8 doubles, 8 triples and a pair of round trippers. His fielding average of .962 is considered fair in view of the fact that he was used at virtually every position. Cahill is a native of Miles City, Montana. Manager George Scherger's present plans have Cahill set for the first base position.

Player on Option
A second addition to the rapidly growing roster is Bob Boynton, an outfielder on option from Danville of Class B Three-I League. Danville is managed by Judson Kirke, son of the immortal Jay Kirke, of Fishersham, N. Y.

Boynton, a 165 pounder who stands 5 feet 10 inches, is a native of Millinocket, Mass. He throws right and bats left and in the words of Manager Scherger, "he runs like a deer." Boynton is tabbed for outfield duty and in all probability will be in the starting lineup against Blommingdale, on Saturday, May 3, at municipal stadium.

Havens in Outfield
The Dodgers were scheduled to start outdoor workouts at municipal stadium at 10 o'clock this morning and continue until 2 o'clock. Manager Scherger plans four-hour workouts from now until the start of the season.

The shift to the spacious stadium terrain was joyfully greeted by the Kingston pilot, who has insisted all along that the Dodgers are far behind schedule in the important item of hitting practice.

Scherger also took time out to clarify the status of Joe Havens, rangy former Poughkeepsie all-round athletic star. Earlier reports had Havens tabbed as a pitcher, but Scherger says Havens is slated for outfield duty. The Bridge City youth impressed Dodger observers at the Thomasville training base with his hitting ability and he was instructed to concentrate on outfield play.

Plans Progressing
Intensive workouts within the next week are expected to bring

the Dodgers up to near top form for the North Atlantic inaugural. Scherger is not unduly concerned about the general condition of the club, since all the other teams in the loop are more or less in the same boat.

The mystery of "Red" Gosline's absence has been cleared up with the announcement that he was scratched from the Kingston roster at the last moment and assigned to another Class D outfit.

A brisk ticket sale is reported for the official reception to the Dodgers on May 3 at The Barn. Top officials of the Brooklyn organization will be present. The reception is open to the public. Tickets may be purchased at the Chamber of Commerce office or through the service clubs of the city.

Illini Seek New Record at Relays; 3,000 Are Entered

Philadelphia, April 25 (AP)—The University of Illinois sends its speed-conscious track team off today on what may be the road to the most coveted of collegiate cinder laurels—a new record in the Penn Relay Carnival.

Only a juggled baton kept the Illini from equalling the all-time mark of four major relay victories in last year's meeting, and as 3,000 athletes got set for the 53d annual carnival, Illinois appeared to have a strong chance to establish a new mark.

For returning to the Franklin Field scene are Herb McKenley, one of the world's greatest quarter-milers; Bob Rehberg, middle distance star; John Twomey, distance runner; Bill Mathis, sprinter, and George Walker, sprinter and hurdler.

Only twice in the history of the big spring panorama have colleges

scored four major relay victories. The University of Pittsburgh, with Johnny Woodruff leading the way, turned the trick in 1939 and the University of Michigan in 1945.

Illinois will defend titles in the 440, sprint medley and mile relays, attempt to replace Manhattan (a difficult trick) in the distance medley, and to capture the 880, which it lost on the foul called when McKenley passed the zone before getting possession of the baton.

Manhattan's strong distance runners rate just behind Illinois in team strength.

The only other serious contention to Illinois is expected to come from New York University and Penn State. The Violets of N.Y.U. showed strength in capturing the indoor ICA championships recently and Penn State's distance runners—Gerry Karver and Curt Stone—have impressed in the winter circuit.

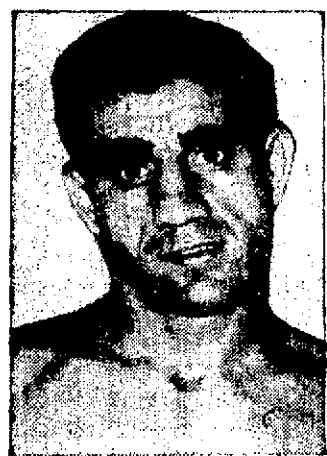

Indiana, Tennessee, North Carolina, Army, Villanova, Navy, Puerto Rico, Princeton, Brown, Yale and Penn are expected to furnish plenty of thrills, particularly in the flock of one-mile relays.

TONY BARONE

Four of the top-flight bouts scheduled for B'nai B'rith boxing show in the municipal auditorium, Thursday, May 1, were announced today by Dr. Saul Goldfarb, the organization's ring chairman. Tony Barone, Schenectady welterweight, a local favorite, is matched with Lou Olmo, Valley Stream welterweight, who recently knocked out Eddie Morton of Albany, an experienced ringman in Poughkeepsie. Jimmy Brightwell, Oklahoma cowboy, Golden Gloves champion, will mix it with Charlie Jones, also of Valley Stream. Frankie Alvarez, Schenectady featherweight, another G. G. finalist is paired with Charlie Green of Long Island and Kingston's middleweight favorite, Joe Ausiano, who won by a knockout on the last card will oppose Hubert Allison, also of Valley Stream. The V. S. boxers will be brought to Kingston by "Frenchy" Ledoux, the handler who introduced Lou Ambers to Kingston when he boxed as Otis Paradise years ago.

Eight Million Fans Predicted for State's Organized Ball; 70,000 Set for Kingston

Albany, N. Y., April 25 (AP)—Professional baseball, launching campaigns on the widest front in state history, expects a record attendance of 7,700,000 in 30 New York cities this season.

About 5,000,000 customers are anticipated at New York city's three big league ballparks and another 2,700,000 at 29 upstate cities represented in eight minor leagues. Hopes for an all-time high in attendance, an Associated Press survey showed, were based largely on the 1946 record. A predicted 5,000,000 turnout burgeoned into 7,725,500 last year.

In 1946, New York's representation in organized baseball included 27 cities with 28 teams in nine leagues.

This season 30 cities are represented by 31 teams in 10 circuits. These include the major league Giants, Dodgers and Yankees in New York city and one Canadian-American League club represented.

Major League Bowling Dinner Honors Hotel Ulster Keglers

The Central Major League's annual banquet last night at Tompkins on High street was one of the most successful in the history of the premier league.

Guests of honor were members of the Hotel Ulster bowling squad, 1946-47 champions, who made a show of one of the strongest fields in the league.

Howard Spaulding, league president, did a neat job of concealing and introducing as speakers Addison Jones, president of the Kingston Bowling Association; District Attorney Louis G. Bruhn; and Charlie Tiano, sports editor of The Freeman.

Mr. Jones recounted experiences of his recent transcontinental automobile trip to the A.B.C. tourney at Alhambra. He made the trip with Al Kieffer, the K.B.A. president said bowling conditions were intolerable on the day of his 3-man event, the thermometer hovering around 103 degrees. He said it was the general opinion of the tournament bowlers that it will be a long time before the west coast is again host to the A.B.C.

Bruhn Reginald Crowl District Attorney Bruhn regaled the gathering with several of his stories. The league prizes awarded by Secretary George Robinson, while John MacLellan, secretary of the Kingston Bowling Association, presented John Ferraro the K.B.A. medal for a 299 single. Fred Van Deusen, local musician, performed several of his tricks, while other entertainment was provided by a group of youngsters of the Cashin School of Dancing.

Life is tough with the New York Giants when big "Jaw" Mize hits three home runs off a 20-game winner and the club hits rock bottom in the National League cellar.

Manager Alvin O'Hara has only one consolation in his miseries. He has distinguished company in the World Championship Series. Cardinals, who also have won only two of their first seven starts in the bright new season.

Despite his slugging feat, Mize never was able to get the Giants in the ball game yesterday at Boston. Johnny Sain was coasting along with a big early lead before Mize started to do his stuff, hitting round trippers off each of his last three trips to the plate.

Neither Mize nor Walter, Cooper also failed to discourage Sain who got home with a 14-5 verdict.

The Braves used only one homer, by Danny Littwiler, in their 21-hit salute to five New York pitchers, starting with loser Monty Kennedy.

Homers Vital
The home run also had its place in the Pittsburgh-Chicago game but it was Don Johnson's single

in the eighth that gave the Cubs a 6-5 edge over the Pirates, reducing their lead over Brooklyn to a half game.

The Brooklyn Dodgers continued to prove their mastery over the Phillies. Dixie Walker's first-inning single with the bases loaded accounted for both runs of Ralph Branca's 2-0 shutout over Tommy Hughes.

Joe Cronin's Boston Red Sox salvaged the last of their three-game set at the Yankee Stadium, shading New York, 1-0, on Tex Hughson's two-hitter.

Don Black, a reformed character, pitched Cleveland to a fourth straight win, a 1-0 shutout, over Chicago with a neat four-hit job. Pat Secrey's second inning homer was the difference between Black and Johnny Rigney.

The St. Louis Browns, shut out in three of their first five starts, nudged Virgil Trucks, Hal White and Stubby Overmire for 10 hits and a 6-1 edge over Detroit. Jack Kramer, the only Browne winner, gave it all he had with a three-hitter.

Philadelphia and Washington were not scheduled in the American and the National game between Cincinnati and St. Louis was postponed because of wet grounds.

ing both Gloversville and Johnstown.

Cities joining the ranks this year are: Poughkeepsie and Port Chester in the new Colonial League, Geneva in the Border League and Kingston in the North Atlantic League. Missing in Walden, which dropped out of the North Atlantic.

Yankee Set-Back
New York's major league teams drew 5,339,917 fans in 1946, with a record 2,308,029 at the Yankee Stadium. 1,796,155 at Brooklyn and 1,234,733 turnout to see the Giants. Baseball men expect the 1947 total to approach 5,000,000.

Minor league attendance in the state last year was 2,185,590. The Class AAA International League, which opened last week, is expected to top the 2,000,000 mark, with three New York members pulling an anticipated 800,000. They are Buffalo, Rochester and Syracuse, which drew 762,800 last year compared with less than

400,000 the previous campaign. The state's four Class A Eastern League cities—Albany, Elmira, Binghamton and Utica—attracted 480,500 of the league's 1,054,900 in 1946. They are figured to hit at least 475,000 this time.

Niagara Falls, the states' lone entry in the Middle Atlantic League, looks for 70,000, up from 40,000 last year.

The bulk of New York's representation in organized ball is in the Class C Canadian-American and Border Leagues and the Class D Pennsylvania-Ontario-New York (Pony) League.

Sixteen New York cities in these lesser loops are expected to attract about 1,000,000 fans in the campaigns they open soon.

Peekskill, Nyack and Kingston of the eight-team, Class D North Atlantic League are expected to draw close to 200,000 fans.

Sports writers estimate that attendance at Poughkeepsie and Port Chester in the Class B Colonial League will crowd 150,000.

9 Training Periods For N. Y. Guard And Other Corps

Peekskill, N. Y., April 25 (AP)—Nine training periods of 12 days each will be held for 16,000 members of the New York Guard, said last night that quotas for each of the nine field training encampments would not exceed 2,000 troops.

The general said the first elements entering camp, all from upstate New York, could be the 1st Infantry Regiment, State Guard, of Walton, Binghamton, Oneonta, Poughkeepsie, Hudson

Silly Serenade Is Outcome of Arrest

Popeye, Sinatra, Singin' Sam, Rolled in One, Warbles for Cops

A night of song and indescribable serenade with facial effects and contortions fit for a zoo was experienced at the city hall last night following the arrest of an unknown vagrant who was dubbed Popeye, Singin' Sam and even Sinatra.

No Sinatra, however, could be caught of the variety of serenade, which came so naturally to this incorrigible vocalist who continued his outbursts long after the lock clamped on the detention cell shortly after 7 p. m.

The song, which might have been the inmate's version of "Open the Door Richard," it was a roll-in-the hay serenade, continued long after Sgt. Lenoul Howard doused the lights.

also since April 1.

Non-ferrous metals remained at the year's high prices. The Associated Press commodity index of 35 commodities, based on 1926 prices as 100, stood at 173.90 April 24, compared with 173.15 April 18, and 173.00 April 11. The high for the year was 182.75 March 14, and the low 164.71 Jan. 24.

The industrial materials component of the index was 148.15 April 24, down 2.50 from the previous week, reflecting the drop in scrap steel and turpentine. The high for the year was 157.02 March 21, and the low 142.51 Jan. 3.

Non-ferrous metals were at the year's high of 181.40, compared with the low of 137.48 Jan. 3. The food price index was 139.85 April 24, down 4.12 from last week, and down 14.73 from the year's high of 154.58 March 14. The year's low was 136.42.

The livestock component of the index was 195.94 April 24, having climbed 3.84 since April 18, when it was at the year's low of 192.10. The year's top was 228.37 Feb. 28.

The grains and cotton component stood at 215.50 April 24, down 1.25 in the week, and compared with the high of 221.02 March 28 and the low of 178.01 Jan. 24.

The textile component was 196.07, unchanged since April 18. The year's high Jan. 31 was 221.36, and the low Jan. 31 was 194.03.

Jugene G. Grace, chairman of Bethlehem Steel, sounded the warning in steel prices—a basic factor in the nation's over-all price picture.

Price increases meant no steel price cuts now, he said, and might mean price increases in the future.

The tour will begin April 30 with a nationwide broadcast.

Out of Hollywood Bowl
Jollywood, April 25 (AP)—A May 19 speaking engagement for former Vice President Henry A. Wallace was tossed right out of the Hollywood Bowl today.

Directors of the Bowl Association, operating the county-owned 20,000-seat amphitheatre as a non-profit organization with a 99-year lease, disclosed they had turned down a request by the Progressive Citizens of America for use of the bowl for that purpose.

President C. E. Toberman of the Bowl Association said "the directors decided the bowl should not be used as a springboard for ideological foreign to the majority thought at this time."

Robert W. Kenny, southern California chairman of P.C.A., countered with the statement that the Wallace meeting "will go on, bowl or no bowl, even if we have to hold it in a telephone booth."

discovered. The St. Remy Fire Department was notified and did good work in saving adjacent out-buildings. The house was completely destroyed and today only the chimney and foundation stands.

While no definite cause of the fire could be fixed today, Mr. Dugan stated that the fire had apparently started in the room from an oil stove. When he opened the door of the room, Mr. Dugan said the flames leaped out and drove him from the house.

No Phone for Alarm
When notified of the fire Mrs. Skurhas became hysterical for a time, Mr. Dugan said, and since the telephone was not in working order it was necessary to drive to the fire station some distance away to sound an alarm. When Mrs. Skurhas was able to drive a car to the firehouse the flames had obtained a good start. Rifton, Port Ewen and St. Remy firemen were notified and the Kingston Fire Department was also alerted and went to the scene but owing to lack of water and the start the fire had gained it was impossible to save the house.

Mr. Dugan said he made repeated attempts to go back into the house to save some of the contents and to get a small amount of cash which he had in his apartment but each time he was driven back by the heat.

Gas, Kerosene Add to Flames
During the fire the connections on two bottled gas tanks melted and the gas added to the flames. Also a 50 gallon drum of kerosene which had been filled the day before exploded and added fuel to the fire. The gas tanks were under the porch and the kerosene was on the porch by the Dugan apartment.

The premises is known locally as the Thompson Homestead and was occupied some time ago by the Thompson family as a dairy farm. Since the Skurhas family has owned the property a large addition containing several rooms has been added. At present the house is known as Shady Brook Farm and is located on the southerly side of St. Remy-Rifton road about midway between Rifton and Rifton.

During the afternoon, fire flames spread over a considerable area of grass. Again last evening the fire broke out and word was sent to Kingston for aid. A truck was sent to the scene.

News of Our Own Service Folk Is Promoted

SGT. ALBERT PASSER
Word has been received by Mr. and Mrs. Melvin J. Passer, 8 North Wilbur avenue, that their son, Cpl. Albert M. Passer, has been promoted to sergeant. Sgt. Passer enlisted in the army air corps December 29, 1945 and is now stationed at Wiesbaden, Germany.

John P. Heitzman, seaman, first class, son of Mr. and Mrs. C. J. Heitzman of 93 Hoffman street, is serving aboard the attack cargo ship U.S.S. Winston. Heitzman entered naval service on June 27, 1946, and received his recruit training at Bainbridge, Md.

Charles Granville Crispell, shipfitter, third class, U.S.N., of 27 Alcazar avenue, is serving aboard the destroyer U.S.S. Brownson, which has returned to the United States after participating in the "Operation Highjump" the Navy's 1947 expedition to the Antarctic. On her homeward journey, the Brownson visited Rio de Janeiro, Brazil, and liberty was enjoyed by all hands.

Schechter Elected Zionist Leader

Other Officers Are Chosen at Temple This Week
At a meeting in Temple Emanuel on Monday the Kingston Zionist Organization elected for the coming year the following officers: Ben Schechter, president; Rabbi Herbert I. Bloom, first vice-president; Nat Becker, second vice-president; Louis Schwartz, secretary and Dr. Samuel Zimet, treasurer.

Installation services are being planned for May 19 at which Zionists from the entire state are expected to attend. During the meeting Monday Rabbi Herbert I. Bloom spoke, presenting an interesting message to the members. Rabbi Plotke also spoke, impressing on the members the need of recruiting more members.

Following the meeting the Zionists joined with Hadassah in listening to M. Blose who gave a talk about the Histadrut in Palestine.

Church Sets Goal

the congregation around that corner.

Referred to Committee
The matter of offering additional footage on the Wall street side of the church property for the possible widening of the street was referred to a committee for further investigation.

The congregation also voted to enlarge the governing body known as Consistory to 12 men instead of the customary eight. This decision was unanimous because the church growth demanded more representation. The members will be elected for a term of two years, the current practice. In order to set-up a rotation system only ten men will be serving during the coming year.

In accordance three new elders and three new deacons were elected last night to serve with two elders and two deacons whose two year term has not expired. The new elders are Mr. Clifford Miller, N. Jansen Fowler, Albert E. Miliken; new deacons: Charles Goble, Jr., Henry Millong and George Shivery. They will serve with Elders Arthur J. Laidlaw, Dr. J. P. Reading and Deacons Clair Sheaffer and Jacob Tremp. The new consistorymen will be installed in June.

Gifts Are Presented
Prior to the business meeting gifts from the congregation were presented to the Rev. and Mrs. Arthur E. Oudemool in token of appreciation for their guidance and fellowship during the twelve years in which they have been at the church. B. C. Van Ingen made the presentations recalling the revival and growth in the church since the Rev. Mr. Oudemool assumed his duties, April 28, 1935.

Edward C. DeWitt, as senior elder of the consistory conducted the meeting. Annual reports were read by Miss Betty Whipple, junior Christian Endeavor; Miss Ann Page, senior Christian Endeavor; Miss Dorothy DuMont, Church school; Charles Back, Boy Scout Troop 12; Miss Caroline Little, Tri-M Club; Mrs. James Huntington, Couples' Club; Miss Florence Tappen, Women's Guild; M. Clifford Miller, Men's Club; Mrs. C. B. Dickinson, World Fellowship Chapter; Mrs. George Shivery, Girl Scouts; John Haulenbeck, choir program.

Before the meeting a covered dish supper was held. The adult choir under the direction of M. S. Raymond H. Rignall sang two secular numbers: "Into the Night", Clara Edwards and a parody on the nursery rhyme, "Old King Cole." Miss Caroline Little accompanied at the piano.
